	<p>In calculating the GEMS Tariff , the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.</p> <p>ALL GEMS TARIFFS ARE VAT INCLUSIVE.</p>				
RULES GOVERNING THE STRUCTURE					
A.	<p>Consultations: Definitions:</p> <p>(a) New and established patients: A consultation/visit refers to a clinical situation where a medical practitioner personally obtains a patient’s medical history, performs an appropriate clinical examination and, if indicated, administers treatment, prescribes or assists with advice. These services must be face-to-face with the patient and excludes the time spent doing special investigations which receive additional remuneration</p> <p>(b) Subsequent visits: Refers to a voluntarily scheduled visit performed within four (4) months after the first visit. It may imply taking down a medical history and/or a clinical examination and/or prescribing or administering of treatment and/or counselling</p> <p>(c) Hospital visits: Where a procedure or operation was done, hospital visits are regarded as part of the normal aftercare and no fees may be levied (unless otherwise indicated). Where no procedure or operation was carried out, fees may be charged for hospital visits according to the appropriate hospital or inpatient follow-up visit code</p>				
B.	<p>Normal hours and after hours: After-hours services are paid at the same rate as benefits for normal hours services. Bona fide emergency medical services rendered to a patient, at any time, may attract a fee as specified in modifier 0011 and items 0146 or 0147 (which should be added to the appropriate consultative services code selected from items 0190-0192, 0173-0175, 0161-0164, 0166-0169)</p>

C.	<p>Comparable services: A service may be rendered that is not listed in this edition of the coding structure. The fee that may be charged in respect of the rendering of a service not listed in this coding structure shall be based on the fee in respect of a comparable service. For these procedure(s)/service(s), item 6999: Unlisted procedure or service code, should be used. Please contact the SA Medical Association (SAMA) Private Practice Unit via e-mail on coding@samedical.org to obtain a comparable code for the unlisted procedure/service which will be based on the fee for a comparable service in the coding structure. When item 6999 is used to indicate that an unlisted service was rendered, the use of the item must be supported by a special report. This report must include:</p> <ol style="list-style-type: none"> (1) An adequate definition or description of the nature, extent and need for the procedure/service or “medical necessity” (2) In which respect is this service unusual or different in technique, compared to available procedures/services listed in the coding structure? Information regarding the nature and extent of the procedure/service, time and effort, special/dedicated equipment needed to provide this service, must be included in the report (3) Is this procedure/service medically appropriate under the circumstances? Explain why another procedure/service listed in the coding structure will not be appropriate in this case (4) A description of the complexity of the symptoms and concurrent problems must be supplied (5) Final diagnosis supported by the appropriate ICD-10 code(s) (6) Pertinent physical findings (size, location and number of lesions if applicable) (7) Mention any other diagnostic or therapeutic procedure(s)/service(s) provided at the same session (8) Any further diagnostic or therapeutic procedure(s)/service(s) to be provided in the follow-up period; and (9) Description of the follow-up care needed. Please note: This comparable service code may not be used for a period longer than six months for a particular procedure/service after which time an application has to be made for the addition of a specific code for this procedure 				
D.	<p>Cancellation of appointments: Unless timely steps are taken to cancel an appointment for a consultation, the relevant consultation fee may be charged. In the case of a General Practitioner “timely” shall mean two hours and in the case of a specialist 24 hours prior to the appointment. Each case shall, however, be considered on merit and, if circumstances warrant, no fee shall be charged. If a patient has not turned up for a procedure, each member of the surgical team is entitled to charge for a visit at or away from doctor’s rooms as the case may be</p>				
E.	<p>Pre-operative visits: The appropriate fee may be charged for all pre-operative visits with the exception of a routine pre-operative visit at the hospital</p>				
F.	<p>Administering of injections and/or infusions: Where applicable, fees for administering injections and/or infusions may only be charged when done by the practitioner himself</p>

G.	<p>Post-operative care:</p> <p>(a) Unless otherwise stated, the fee in respect of an operation or procedure shall include normal aftercare for a period not exceeding ONE month (aftercare is excluded from pure diagnostic procedures during which no therapeutic procedures were performed)</p> <p>(b) If the normal aftercare is delegated to any other registered health professional and not completed by the surgeon, it shall be his/her own responsibility to arrange for this to be done without extra charge</p> <p>(c) When post-operative care/treatment of a prolonged or specialised nature is required, such fee as may be agreed upon between the surgeon and the scheme or the patient (in case of a private account) may be charged</p> <p>(d) Normal aftercare refers to an uncomplicated post-operative period not requiring any further incisions</p>				
H.	Removal of lesions: Items involving removal of lesions include follow-up treatment for 10 days				
J.	Disproportionately low fees: In exceptional cases where the fee is disproportionately low in relation to the actual services rendered by a medical practitioner, a higher fee may be negotiated. The use of this rule is not intended merely to increase the Medical Schemes Benefits				
K.	Practice of specialists: In terms of the conditions in respect of the practice of specialists as published in Government Gazette No. 12958 of 11 January 1991, a specialist may treat any person who comes to him direct for consultation. A specialist who is consulted by a patient or who treats a patient, shall take all reasonable steps to ensure the collaboration of the patient's General Practitioner. Medical practitioners referring cases to other medical practitioners shall indicate in the reference whether the patient is a member of a medical scheme or a dependant of such member. This also applies in respect of specimens sent to pathologists				
L.	Procedures performed at time of visits: If a procedure is performed at the time of a consultation/visit, the fee for the visit PLUS the fee for the procedure is charged				
M.	Procedure planned to be performed later: In cases where, during a consultation/visit, a procedure is planned to be performed at a later occasion, a visit may not be charged for again, at such a later occasion				
N.	"Per consultation": No additional fee may be charged for a service for which the fee is indicated as "per consultation". Such services are regarded as part of the consultation/visit performed at the time the condition is brought to the doctor's attention

Acupuncture: (a) When two separate acupuncture techniques are used, each treatment shall be regarded as a separate treatment for which fees may be charged for separately (b) Not more than two separate techniques may be charged for at each session (c) The maximum number of acupuncture treatments per course to be charged for is limited to 20. If further treatment is required at the end of this period of treatment, it should be negotiated with the patient (d) Item 0380 refers to scalp acupuncture as a treatment in its own right and not to the use of acupuncture points on the scalp				
EE.	Ultrasound examinations: The international norm approved for use in South Africa for NORMAL PREGNANCY is two ultrasound exams: (a) The first scan should preferably include a nuchal thickness estimation and be performed between 10 and 14 weeks gestation. The second scan should be performed between 20 and 24 weeks and should include a full anatomical report. All subsequent ultrasound scans are excluded from the benefits of medical schemes unless accompanied by proper motivation. An ultrasound scan to assess an abnormal early pregnancy may be formed before 10 weeks but this scan may not be used to diagnose a normal uncomplicated pregnancy. Item 3618 is a gynaecological scan and its use is not approved for use in pregnancy (b) In cases where the scan is performed by the attending practitioner, a clear indication for such a scan must be entered on the account rendered, or a letter of motivation must be attached to the account (the practitioner must elect one of the two options) (c) In case of a referral, the referring doctor must submit a letter of motivation to the radiologist or other practitioner doing the scan. A copy of the letter of motivation must be attached to the first account rendered to the patient (by the radiologist or the other practitioner doing the scan) and must be attached to the first account submitted to the medical scheme by the patient or the doctor, as the case may be (d) In case of a referral to a radiologist, no motivation should be required from the radiologist

GENERAL MODIFIERS GOVERNING THIS SECTION					
0011	Emergency procedures: Any bona fide, justifiable emergency procedure (all hours) undertaken in an operating theatre and/or in another setting in lieu of an operating theatre, will attract an additional 12,00 clinical procedure units per half-hour or part thereof of the operating time for all members of the surgical team. Modifier 0011 does not apply in respect of patients on scheduled lists. (A medical emergency is any condition where death or irreparable harm to the patient will result if there are undue delays in receiving appropriate medical treatment)				R0,00
0013	Endoscopic examinations done at operations: Where a related endoscopic examination is done at an operation by the operating surgeon or the attending anaesthesiologist, only 50% of the fee for the endoscopic examination may be charged				R0,00
0014	Operations previously performed by other surgeons: Where an operation is performed which has been previously performed by another surgeon, e.g. a revision or repeat operation, the fee shall be calculated according to the tariff for the full operation plus an additional fee to be negotiated under general Rule J: In exceptional cases where the fee is disproportionately low in relation to actual service rendered, except where already specified in the tariff				R0,00
MODIFIERS GOVERNING SECTION 1					
0015	Intravenous infusions: Where intravenous infusions (including blood and blood cellular products) are administered as part of the after-treatment after the operation or confinement, no extra fees shall be charged as this is included in the global operative or maternity fees. Should the practitioner doing the operation or attending to the maternity case prefer to ask another practitioner to perform post-operative or post-confinement intravenous infusions, then the practitioner himself (and not the patient) shall be responsible for remunerating such practitioner for the infusions				R0,00
0017	Injections administered by practitioners: When desensitisation, intravenous, intramuscular or subcutaneous injections are administered by the practitioner him-/herself to patients who attend the consulting rooms, a first injection forms part of the consultation/visit and only all subsequent injections for the same condition should be charged at 7.50 consultative services units using modifier 0017 to reflect the amount (not chargeable together with a consultation item)				R0,00

CONTRACTED ANAESTHESIOLOGIST REO OPTION CONTINUED

GEMS TARIFF FOR SERVICES BY CONTRACTED ANAESTHESIOLOGISTS, REO OPTIONS ONLY WITH EFFECT FROM 1 JANUARY 2019

Practice type: **Anaesthesiology**
Discipline 10

Tariff Code	Description of Tariff Code	CF	Units	Flag	2019 values
0021	Determination of anaesthetic fees: Anaesthetic fees are determined by obtaining the sum of the basic anaesthetic units (allocated to each procedure that might be performed under anaesthetic as indicated in the "Anaesthetic Performed" column) plus the time units (calculated according to the formula in Modifier 0023) and the appropriate modifiers (see Modifiers 0037-0044). In cases of operative procedures on the musculoskeletal system, open fractures and open reduction of fractures or dislocations add units as laid down by Modifiers 5441 to 5448				
0023	The basic anaesthetic units are laid down in the tariff and are reflected in the anaesthetic column. These basic anaesthetic units reflect the additional anaesthetic risk, the technical skill required of the anaesthesiologist/ anaesthetist and the scope of the surgical procedure, but exclude the value of the actual time spent administering the anaesthetic. The time units (indicated by "T") will be added to the listed basic anaesthetic units in all cases on the following basis: Anaesthetic time: The remuneration for anaesthetic time shall be per 15 minute period or part thereof, calculated from the commencement of the anaesthetic, i.e. 2,00 anaesthetic units per 15 minute period or part thereof, provided that should the duration of the anaesthetic be longer than one (1) hour the number of units shall, after one (1) hour, be 3,00 anaesthetic units per 15 minute period or part thereof				
0024	Pre-operative assessments not followed by procedures: If a pre-operative assessment of a patient by the anaesthesiologist/anaesthetist is not followed by an operation, it will be regarded as a visit at hospital or nursing home and the appropriate hospital visit item should be charged				
0025	Calculation of anaesthetic time: Anaesthetic time is calculated from the time the anaesthesiologist/anaesthetist begins to prepare the patient for the induction of anaesthesia in the operating theatre or in a similar equivalent area and ends when the anaesthesiologist/anaesthetist is no longer required to give his/her personal professional attention to the patient, i.e. when the patient may, with reasonable safety, be placed under the customary post-operative supervision. Where prolonged personal professional attention is necessary for the well-being and safety of such patient, the necessary time will be valued on the same basis as indicated above for the anaesthetic time. The anaesthesiologist/anaesthetist must show on his/her account the exact anaesthetic time, including the supervision time spent with the patient				
0027	More than one procedure under the same anaesthetic: Where more than one operation is performed under the same anaesthetic, the basic anaesthetic units will be that of the major operation with the highest number of units				
0028	Indicator for use of low flow anaesthetic technique less than 1litre/minute: Fresh gas flow of less than 1 litre/minute

0029	Assistant anaesthesiologists: When rendered necessary by the scope of the anaesthetic, an assistant anaesthesiologist may be employed. The remuneration of the assistant anaesthesiologist shall be calculated on the same basis as in the case where a General Practitioner administers the anaesthetic				
0030	Indicator for use of low flow anaesthetic technique 1-2 litre/minute: Fresh gas flow of 1 to 2 litre/minute				
0031	Intravenous drips and transfusions: Treatment with intravenous drips and transfusions is considered part of the normal treatment in administering an anaesthetic. No additional fees may be charged for such services when rendered either prior to, or during actual theatre or operating time				
0032	Patients in prone position: Anaesthesia administered to patients in the prone position shall have a minimum of 4,00 basic anaesthetic units. When the basic anaesthetic units for the procedure is 3,00, one extra anaesthetic unit should be added. If the basic anaesthetic units for the procedure is 4,00 or more, no extra units should be added				
0033	Participating in general care of patients: When an anaesthesiologist/anaesthetist is required to participate in the general care of a patient during a surgical procedure, but does not administer the anaesthetic, such services may be remunerated at full anaesthetic rate, subject to the provisos of modifier 0035: Anaesthetic administered by an anaesthesiologist/anaesthetist. and modifier 0036: Anaesthetic administered by general practitioners				
0034	Head and neck procedures: All anaesthetics administered for diagnostic, surgical or X-ray procedures on the head and neck shall have a minimum of 4,00 basic anaesthetic units. When the basic anaesthetic units for the procedure is 3,00, one extra anaesthetic unit should be added. If the basic anaesthetic units for the procedure is 4,00 or more, no extra units should be added				
0035	Anaesthetic administered by an anaesthesiologist/anaesthetist: No anaesthetic administered shall have a total value of less than 7,00 anaesthetic units (basic units, time units plus appropriate modifiers)

GENERAL RULE GOVERNING ULTRASONIC EXAMINATIONS DURING PREGNANCY					
EE.	<p>Ultrasound examinations: The international norm approved for use in South Africa for NORMAL PREGNANCY is two ultrasound exams:</p> <p>(a) The first scan should preferably include a nuchal thickness estimation and be performed between 10 and 14 weeks gestation. The second scan should be performed between 20 and 24 weeks and should include a full anatomical report. All subsequent ultrasound scans are excluded from the benefits of medical schemes unless accompanied by proper motivation. An ultrasound scan to assess an abnormal early pregnancy may be formed before 10 weeks but this scan may not be used to diagnose a normal uncomplicated pregnancy. Item 3618 is a gynaecological scan and its use is not approved for use in pregnancy</p> <p>(b) In cases where the scan is performed by the attending practitioner, a clear indication for such a scan must be entered on the account rendered, or a letter of motivation must be attached to the account (the practitioner must elect one of the two options)</p> <p>(c) In case of a referral, the referring doctor must submit a letter of motivation to the radiologist or other practitioner doing the scan. A copy of the letter of motivation must be attached to the first account rendered to the patient (by the radiologist or the other practitioner doing the scan) and must be attached to the first account submitted to the medical scheme by the patient or the doctor, as the case may be</p> <p>(d) In case of a referral to a radiologist, no motivation should be required from the radiologist</p>

Tariff Code	Description of Tariff Code	CF	Units	Flag	2019 values
6000	Actigraphy: Patient monitored for a minimum of 72 hours (includes equipment fee and interpretation)				R0,00
MODIFIER GOVERNING INTERVENTIONAL RADIOLOGICAL PROCEDURES					
0090	Radiologist's fee for participation in a team: 30,00 radiology units per ½ hour or part thereof for all interventional radiological procedures, excluding any pre- or post-operative angiography, catheterisation, CT-scanning, ultrasound-scanning or x-ray procedures. (Only to be charged if radiologist is hands-on, and not for interpretation of images only)				R0,00
19.15	Magnetic Resonance Imaging (MRI)				
6100	In order to charge the full fee (600,00 magnetic resonance units) for an examination of a specific single anatomical region, it should be performed with the applicable radio frequency coil including T1 and T2 weighted images on at least two planes				R0,00
6101	Where a limited series of a specific anatomical region is performed (except bone tumour), e.g a T2 weighted image of a bone for an occult stress fracture, not more than two-thirds (2/3) of the fee may be charged. Also applicable to all radiotherapy planning studies, per region				R0,00
6102	All post-contrast studies (except bone tumour), including perfusion studies, to be charges at 50% of the fee				R0,00
6103	Post-contrast study: Bone tumour: 100% of the fee				R0,00
6104	Limited examination of the hypophysis e.g. where a coronal T1 and sagittal T1 series are performed, two-thirds (2/3) of the fee is applicable				R0,00
6105	Where, in a limited hypophysis examination, Gadolinium is administered and coronal T1 and sagittal T1 series are repeated, a single full fee for the entire examination is applicable + cost of Gadolinium + disposable items				R0,00

	<p>In calculating the GEMS Tariff , the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10 cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.</p> <p>ALL GEMS TARIFFS ARE VAT INCLUSIVE.</p>						
	<p>The schedule includes procedures and services for use by Oral Healthcare Providers for purposes of keeping accurate patient records, reporting procedures on patients, and processing oral healthcare related insurance claims. The procedures are those performed by general dental practitioners, oral pathologists, prosthodontists, periodontists, orthodontists, maxillo-facial and oral surgeons and dental therapists.</p> <p>The procedures codes listed in the schedule have, for the convenience in using the schedule, been divided into categories of services, based on the branches of clinical dental practice. The procedures are grouped under the category of service with which the procedures are most frequently identified and should not be interpreted as excluding certain categories of Oral Healthcare Providers from performing such procedures. Individual procedure codes consist of a procedure code, procedure description (nomenclature), and when necessary, a descriptor, that provides further definition and/or guidelines to clarify the intended use of the procedure code.</p>

B. GENERAL CODING RULES							
006	<p>The schedule does not prescribe the scope of practice of a particular category of Oral Healthcare Provider; neither does it confine the performing of procedures or services to a registered speciality. Fees listed within a column of a particular category of Oral Healthcare Provider are customary fees, should the procedure or service be rendered by that provider category.</p> <p>Specialists are however encouraged to confine their practice to the speciality or related specialities in which they are registered. Specialists may charge fees for procedures or services which usually pertain to some other speciality, if such procedures or services are also recognised in their speciality, and if it is carried out only for their bona fide patients. Such fees shall not be higher than those charged by General Practitioners for the same procedures or services (HPCSA, Rule 25). Fees for procedures or services not listed within the column of dental therapists that do fall within the field of dental therapy in terms of their scope of practice are regarded as being “by arrangement” until such fees are listed.</p>						
007	<p>Procedures not listed in the Dental Schedule</p> <p>When a procedure is performed that is not listed in the schedule, an appropriate procedure code, listed in the NHRPL for medical practitioners may be reported.</p>

	Unlisted procedures. Any procedure that is neither described in the schedule, nor in the medical schedule, should be reported using code 9099 – Unlisted dental procedure or service. The fee for an unlisted dental procedure or service should be based on the fee of a comparable procedure. Code 9099 codes should not be used to report procedures where the fee is determined “by arrangement” with the patient and/or medical scheme.						
C. SERVICES RULES							
008	<p>Oral evaluations and completion of treatment plans:</p> <p>Oral examinations include an examination, diagnosis and treatment planning (when treatment is required). No further fees/benefits shall be levied for an oral examination (code 8101) or comprehensive examination (code 8102) until the treatment plan resulting from these type of examinations is completed. Follow-up care for therapeutic surgical procedures: The fee/benefit for an operation shall, unless otherwise stated, include normal post-operative care for a period not exceeding four months. If a practitioner does not him/herself complete the post-operative care, he/she shall arrange for post-operative care without additional charges. A fee/benefit for post-operative treatment of a prolonged or specialised nature may be charged as agreed upon between the practitioner and the scheme. 2. Multiple procedures (Maxillo-facial and oral surgery): The fee/benefit for more than one operation or procedure performed through the same incision shall be determined as the fee for the major operation plus fee/benefit for the subsidiary operation to the indicated maximum for each such subsidiary operation or procedure (Modifier 8005). The fee/benefit for more than one operation or procedure performed under the same anaesthetic but through another incision shall be determined on the fee/benefit for the major operation plus: 75% for the second procedure/operation (Modifier 8009). 50% for the third and subsequent procedures/operations (Modifier 8006). This rule shall not apply where two or more unrelated operations are performed by practitioners in different specialities, in which case each practitioner shall be entitled to the full fee/benefit of the operation. If, within four months, a second operation for the same condition or injury is performed, the fee/benefit for the second operation shall be 50% of that of the first operation (Modifier 8006). 3. Assistant Surgeon (Maxillo-facial and periodontal surgery): The fee payable to a specialist assistant is determined as 1/3 (of the fee of the practitioner performing the procedure (Modifier 8001). The fee payable to a general dental practitioner assistant is determined as 15% (of the fee of the practitioner performing the procedure (Modifier 8007)). The patient must be informed beforehand that another dentist/specialist will be assisting at the operation and that a fee will be payable to the assistant. The assistant's name must appear on the invoice rendered to the patient. 4. Surgical team (Maxillo-facial and oral surgery): The additional fee to all members of the surgical team for after hours emergency surgery shall be calculated by adding 25% to the fee for the procedure or procedures performed (Modifier 8008).

For example, if the practitioner was paid R10,000.00 for a 24-month treatment plan and 18 months of treatment were completed. The balance would be R 2,000.00 (or R10,000.00 - R2,000.00 x 6/24). The length of the treatment plan from the original request for authorisation will be used to determine the number of treatment months remaining. The practitioner continuing treatment will provide the information stipulated in paragraph 1 above. Report code 8891 (Orthodontic transfer) with the fee that will be levied for continuation of the treatment in addition to the appropriate orthodontic treatment code. The fee for continuous treatment is subject to prior authorisation by the patient's medical scheme.</p> <p>7. When an established orthodontic patient requires re-treatment, the information stipulated in paragraph 1 above and the cause(s) for re-treatment will be provided. Report code 8892 (Orthodontic re-treatment) with the fee that will be levied for re-treatment in addition to the appropriate orthodontic treatment code. Orthodontic re-treatment is subject to prior authorisation by the patient's medical scheme.</p>

	<p>Frequency of benefits</p> <p>The South African Dental Association recommends to medical schemes, where considered necessary and appropriate, that contract limitations on the frequency of providing care for certain services be stated as “twice a calendar year” rather than once in every six months.</p>						
	<p>Radiographs and records</p> <p>Radiographs should be taken only for clinical reasons as determined by the treating dentist. Postoperative radiographs should only be required as part of dental treatment. When a dentist determined it is appropriate to comply with a third-party payer’s request for radiographs, a duplicate set should be submitted and the originals retained by the dentist. Any additional costs incurred by the dentists in copying radiographs and clinical records for claims determination should be reimbursed by the third-party payer or the patient.</p>						
	<p>New vs. established patient</p> <p>A new patient is one who has not received any professional services from the dentist or another dentist of the same speciality who belongs to the same group practice, within the past three years. An established patient (patient of record) is one who has received professional services from the dentist or another dentist of the same speciality who belongs to the same group practice, within the past three years.</p> <p>In the instance where a dentist is on call for or covering for another dentist, the patient’s encounter will be classified as it would have been by the dentist who is not available.</p>

	CLINICAL ORAL EXAMINATIONS						
	The purpose of oral examinations is to observe and record pertinent information, past and present, necessary to arrive at a diagnosis and treatment plan (when treatment is indicated). A treatment plan is a list of procedures or services the dentist proposes to perform on a dental patient based on the results of the examination and diagnosis. Often more than one treatment plan is presented.						
	Oral examinations may require the integration of information that is acquired through additional diagnostic procedures, which should be reported separately. The oral examination, diagnosis, and treatment planning are the responsibility of the dentist. The collection and recording of some data and components of the oral examination may however be delegated. Oral examinations and consultations include the issuing of prescriptions where medication is required.

C. RESTORATIVE SERVICES							
	<p>The branch of dentistry that deals with the reconstruction of the hard tissues of a tooth or group of teeth, injured or destroyed by trauma or disease. Restorative services/procedures intend to restore the function of a natural tooth.</p> <p>Anterior teeth include incisors and canines. Posterior teeth include premolars and molars.</p> <p>The number of tooth surfaces restored, i.e. mesial, occlusal (or incisal), distal, lingual, or vestibular (buccal or labial), is used to determine the appropriate procedure code. A one surface restoration for example, involves only one of the surfaces, while a two-surface restoration extends to two of the five surfaces. With a four-or-more-surfaces anterior restoration involving four tooth surfaces and the incisal angle is involved.</p> <p>Limitations on amalgam and resin-based composite restorations:</p> <p>(1) The reporting of two separate restorations of the same material (e.g., a MO and DO amalgam restoration) on the same tooth is appropriate. Some medical schemes however, have a clause in its dental plan(s) that restricts coverage of the same tooth surface, such as an occlusal, twice on the same day and may require the reporting of a MOD restoration instead of a separate MO and DO restoration.</p> <p>(2) The current NHRPL rates include direct pulp capping (code 8301) and rubber dam application (code 8304).</p>						
	Amalgam Restorations						
	<p>All adhesives, liners, bases and polishing are included as part of the restoration. If pins are used, they should be reported separately.</p> <p>See codes 8345, 8347 and 8348 for post and/or pin retention.</p>

	Resin-based Composite Restorations						
	<p>Resin restorations refer to a broad category of materials including but not limited to composites. Report these codes when glass ionomers/comonomers are used as restorations. The procedures include acid etching, adhesives (including resin bonding agents) and curing part of the restoration.</p> <p>Resin restorations utilise the direct technique. For the indirect technique, see "Resin inlays/onlays"</p> <p>If pins are used, they should be reported in addition to these codes – See codes 8345, 8347 and 8348 for post and/or pin retention.</p>

	Temporary and/or intermediate inlays/onlays, the removal thereof and cementing of the permanent restoration are included as part of the restoration. The cusp tip must be overlaid to be considered an onlay.						
	Metal Inlays/Onlays						
	Use these codes for single metal inlay/onlay restorations. See the Fixed Prosthodontic Service section for metal inlay/only bridge retainers. Metal components include structures manufactured by means of conventional casting and/or electroforming. The benefits provided by some medical schemes for metal inlays on anterior teeth (incisors and canines) may be subject to pre-authorisation.

	Porcelain/Ceramic Inlays/Onlays						
	Use these codes for single porcelain/ceramic inlay/onlay restorations. See the Fixed Prosthodontic Service section for porcelain/ceramic inlay/only bridge retainers. Porcelain/ceramic inlays/onlays include all indirect ceramic, porcelain and polymer-reinforced porcelain type inlays/onlays. Fees for the application of a rubber dam (8304) may be levied in addition to these codes. TO BE CONFIRMED: When computer generated (CAD-CAM) ceramic restorations are fabricated by the dental practitioner, laboratory costs do not apply. Report codes 8570 (Fabrication of computer generated ceramic restoration) and 8560 for the cost of the ceramic block in addition to the restoration.

I. FIXED PROSTHODONTICS							
	<p>The branch of prosthodontics concerned with the replacement or restoration of teeth by artificial substitutes that are not readily removable.</p> <p>A prosthetic retainer (e.g., crown/inlay/onlay retainer) in this section is defined as a part of a bridge that attaches a pontic to the abutment tooth. A pontic is that part of a bridge which replaces a missing tooth or teeth. Each retainer and each pontic constitutes a unit in a bridge.</p> <p>Porcelain/ceramic retainers and pontics presently include all ceramic, porcelain and porcelain fused to metal retainers and pontics.</p> <p>Resin retainers and pontics and resin metal retainers and pontics include all reinforced heat and/or pressure-cured resin materials.</p> <p>Metal components include structures manufactured by means of conventional casting and/or electroforming.</p>						
	Pontics						
	Comment: Codes 8415, 8416, 8417 and 8418 include ovate pontic designs. The nomenclatures of the pontics have been revised to coincide with the nomenclature used for crowns, which improves accurate record keeping. A similar approach has been followed for crowns and inlays/onlays utilised as bridge retainers.

	<p>In calculating the GEMS Tariff , the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.</p> <p>ALL GEMS TARIFFS ARE VAT INCLUSIVE.</p>															
RULES GOVERNING THE STRUCTURE																
A.	<p>Consultations: Definitions:</p> <p>(a) New and established patients: A consultation/ visit refers to a clinical situation where a medical practitioner personally obtains a patient's medical history, performs an appropriate clinical examination and, if indicated, administers treatment, prescribes or assists with advice. These services must be face-to-face with the patient and excludes the time spent doing special investigations which receive additional remuneration.</p> <p>(b) Subsequent visits: Refers to a voluntarily scheduled visit performed within four (4) months after the first visit. It may imply taking down a medical history and/or a clinical examination and/or prescribing or administering of treatment and/or counselling.</p> <p>(c) Hospital visits: Where a procedure or operation was done, hospital visits are regarded as part of the normal after-care and no fees may be levied (unless otherwise indicated). Where no procedure or operation was carried out, fees may be charged for hospital visits according to the appropriate hospital or inpatient follow-up visit code.</p>															
B.	<p>Normal hours and after hours: After-hours services are paid at the same rate as benefits for normal hours services. Bona fide emergency medical services rendered to a patient, at any time, may attract a fee as specified in modifier 0011 and items 0146 or 0147 (which should be added to the appropriate consultative services code selected from items 0190-0192, 0173-0175, 0161-0164, 0166-0169)</p>

C.	<p>Comparable services: A service may be rendered that is not listed in this edition of the coding structure. The fee that may be charged in respect of the rendering of a service not listed in this coding structure shall be based on the fee in respect of a comparable service. For these procedure(s)/service(s), item 6999: Unlisted procedure or service code, should be used. Please contact the SA Medical Association (SAMA) Private Practice Unit via e-mail on coding@samedical.org to obtain a comparable code for the unlisted procedure/service which will be based on the fee for a comparable service in the coding structure. When item 6999 is used to indicate that an unlisted service was rendered, the use of the item must be supported by a special report. This report must include:</p> <ol style="list-style-type: none"> (1) An adequate definition or description of the nature, extent and need for the procedure/service or "medical necessity"; (2) In which respect is this service unusual or different in technique, compared to available procedures/ services listed in the coding structure? Information regarding the nature and extent of the procedure/ service, time and effort, special/dedicated equipment needed to provide this service, must be included in the report; (3) Is this procedure/service medically appropriate under the circumstances? Explain why another procedure/ service listed in the coding structure will not be appropriate in this case; (4) A description of the complexity of the symptoms and concurrent problems must be supplied; (5) Final diagnosis supported by the appropriate ICD-10 code(s); (6) Pertinent physical findings (size, location and number of lesions if applicable); (7) Mention any other diagnostic or therapeutic procedure(s)/service(s) provided at the same session; (8) Any further diagnostic or therapeutic procedure(s)/ service(s) to be provided in the follow-up period; and (9) Description of the follow-up care needed. Please note: This comparable service code may not be used for a period longer than six months for a particular procedure/service after which time an application has to be made for the addition of a specific code for this procedure.

D.	Cancellation of appointments: Unless timely steps are taken to cancel an appointment for a consultation, the relevant consultation fee may be charged. In the case of a general practitioner "timely" shall mean two hours and in the case of a specialist 24 hours prior to the appointment. Each case shall, however, be considered on merit and, if circumstances warrant, no fee shall be charged. If a patient has not turned up for a procedure, each member of the surgical team is entitled to charge for a visit at or away from doctor's rooms as the case may be															
E.	Pre-operative visits: The appropriate fee may be charged for all pre-operative visits with the exception of a routine pre-operative visit at the hospital															
F.	Administering of injections and/or infusions: Where applicable, fees for administering injections and/or infusions may only be charged when done by the practitioner himself															
G.	Post-operative care: (a) Unless otherwise stated, the fee in respect of an operation or procedure shall include normal after-care for a period not exceeding ONE month (after-care is excluded from pure diagnostic procedures during which no therapeutic procedures were performed). (b) If the normal after-care is delegated to any other registered health professional and not completed by the surgeon, it shall be his/her own responsibility to arrange for this to be done without extra charge. (c) When post-operative care/treatment of a prolonged or specialised nature is required, such fee as may be agreed upon between the surgeon and the scheme or the patient (in case of a private account) may be charged. (d) Normal after-care refers to an uncomplicated post-operative period not requiring any further incisions.															
H.	Removal of lesions: Items involving removal of lesions include follow-up treatment for 10 days															
J.	Disproportionately low fees: In exceptional cases where the fee is disproportionately low in relation to the actual services rendered by a medical practitioner, a higher fee may be negotiated. The use of this rule is not intended merely to increase the Medical Schemes Benefits.

K.	Practice of specialists: In terms of the conditions in respect of the practice of specialists as published in Government Gazette No. 12958 of 11 January 1991, a specialist may treat any person who comes to him direct for consultation. A specialist who is consulted by a patient or who treats a patient, shall take all reasonable steps to ensure the collaboration of the patient's general practitioner. Medical practitioners referring cases to other medical practitioners shall indicate in the reference whether the patient is a member of a medical scheme or a dependant of such member. This also applies in respect of specimens sent to pathologists															
L.	Procedures performed at time of visits: If a procedure is performed at the time of a consultation/visit, the fee for the visit PLUS the fee for the procedure is charged															
M.	Procedure planned to be performed later: In cases where, during a consultation/visit, a procedure is planned to be performed at a later occasion, a visit may not be charged for again, at such a later occasion															
N.	"Per consultation": No additional fee may be charged for a service for which the fee is indicated as "per consultation". Such services are regarded as part of the consultation/visit performed at the time the condition is brought to the doctor's attention															
O.	Costly or prolonged medical services or procedures: In the case of costly or prolonged medical services or procedures, the medical practitioner shall first ascertain from the medical scheme for what amount the medical scheme will accept responsibility in respect of such treatment, should the practitioner wish any direct payment from the scheme

EE.	<p>Ultrasound examinations: The international norm approved for use in South Africa for NORMAL PREGNANCY is two ultrasound exams:</p> <p>(a) The first scan should preferably include a nuchal thickness estimation and be performed between 10 and 14 weeks gestation. The second scan should be performed between 20 and 24 weeks and should include a full anatomical report. All subsequent ultrasound scans are excluded from the benefits of medical schemes unless accompanied by proper motivation. An ultrasound scan to assess an abnormal early pregnancy may be formed before 10 weeks but this scan may not be used to diagnose a normal uncomplicated pregnancy. Item 3618 is a gynaecological scan and its use is not approved for use in pregnancy.</p> <p>(b) In cases where the scan is performed by the attending practitioner, a clear indication for such a scan must be entered on the account rendered, or a letter of motivation must be attached to the account (the practitioner must elect one of the two options).</p> <p>(c) In case of a referral, the referring doctor must submit a letter of motivation to the radiologist or other practitioner doing the scan. A copy of the letter of motivation must be attached to the first account rendered to the patient (by the radiologist or the other practitioner doing the scan) and must be attached to the first account submitted to the medical scheme by the patient or the doctor, as the case may be.</p> <p>(d) In case of a referral to a radiologist, no motivation should be required from the radiologist.</p>

MODIFIERS GOVERNING THE STRUCTURE																
0002	Written report on X-rays: The lowest level code for a new patient office (consulting rooms) visit, is applicable only where a radiologist is requested to give a written report on X-rays taken elsewhere and submitted to him. The above mentioned item and the lowest level initial hospital visit code, as appropriate are not to be used for routine reporting of X-rays taken elsewhere															
0004	Procedures performed in own procedure rooms: Procedures performed in doctors' own procedure rooms instead of in a hospital theatre or unattached theatre unit: as per fee for procedure + 100% (the value of modifier 0004 equals 100% of the value of the procedure performed). See Section V (Section G in SAMA's DBT) for a list of procedures, which are often done in rooms to which Modifier 0004 should not be applied. Please note: Only the medical practitioner who owns the facility and the equipment may charge modifier 0004. 0005	<p>Multiple therapeutic procedures/operations under the same anaesthetic:</p> <p>a) Unless otherwise identified in the tariff when multiple therapeutic procedures/operations add significant time and/or complexity, and when each procedure/operation is clearly identified and defined, the following values shall prevail: 100% (full value) for the first or major procedure/operation, 75% for the second procedure/operation, 50% for the third procedure/operation, 25% for the fourth and subsequent procedures/operations. This modifier does not apply to purely diagnostic procedures.</p> <p>b) In the case of multiple fractures and/or dislocations the above values shall prevail.</p> <p>c) When purely diagnostic endoscopic procedures or diagnostic endoscopic procedures unrelated to any therapeutic procedures performed, are performed under the same general anaesthetic, Modifier 0005 is not applicable to the fees for such diagnostic endoscopic procedures as the fees for endoscopic procedures do not provide for after-care. Specify unrelated endoscopic procedure and provide diagnosis to indicate diagnostic endoscopic procedure(s) unrelated to other (therapeutic) procedures performed under the same anaesthetic.</p> <p>d) Please note: When more than one small procedure is performed and the tariff makes provision for items for "subsequent" or "maximum for multiple additional procedures" (see Section 2. Integumentary System) Modifier 0005 is not applicable as the fee is already a reduced fee.</p> <p>e) "+" Means that this item is used in addition to another definitive procedure and is therefore not subject to reduction according to Modifier 0005 (see also Modifier 0082)</p>															
0006	<p>Visiting specialists performing procedures: Where specialists visit smaller centres to perform procedures, fees for these particular procedures are exclusive of after-care. The referring practitioner will then be entitled to subsequent hospital visits for after-care. If the referring practitioner is not available, the specialist shall, on consultation with the patient, choose an appropriate locum tenens. 0198	Once-off administration of medicines: This item provides for medicines used at a consultation, viz, once off administration of medicine, special medicine used in treatment, or emergency dispensing. Charge for medicine used according to the Single Exit Price (SEP) PLUS legislated tariff for dispensing fees. (Where applicable, VAT should be added to the dispensing fee only and not to the SEP, since the SEP is VAT inclusive). [According to Section 18(8) of the Medicines and Related Substances Act (Act 101 of 1965) compounding and dispensing does not refer to a medicine requiring preparation for a once-off administration to a patient during a consultation]. The appropriate Ethical Medicine Nappi code(s), selected from those codes commencing with 7, 8 or 9 (provided that it is not a reference code), should be added applicable to the medicine used. Please note: Refer to item 0201 for cost of material used in treatment.															
II.a.3	Cost of chemotherapy drugs															
0212	Cost of chemotherapy drugs: This item provides for a charge for chemotherapy drugs used in treatment. Charge for chemotherapy drugs used in treatment at cost price PLUS 16% (with a maximum of R16,00). (Where applicable, VAT should be added to the above). The appropriate Ethical Medicine Nappi code(s), selected from those codes commencing with 7, 8 or 9 (provided that it is not a reference code), should be added applicable to the chemotherapy drugs used.															
II.b	Material codes															
II.b.1	Prosthesis and/or internal fixation															
II.b.2	Material used during a consultation															
0201	Cost of material in treatment: This item provides for a charge for material used in treatment. Charge for material at cost price PLUS 26% (up to a maximum of R26,00). (Where applicable, VAT should be added to the above). The appropriate Surgical and Material Nappi code(s), selected from those codes commencing with 4, 5, 6, where applicable, for the material used, must be provided. Please note: Refer to item 0198 for once off administration of medicine.															
II.c	Setting of sterile tray															
0202	Setting of sterile tray: A fee of 10,00 clinical procedure units may be charged for the setting of a sterile tray where a sterile procedure is performed in the rooms. III.	PROCEDURES															
6999	Unlisted procedure/service: A procedure/service may be provided that is not listed in this edition of the coding structure. Refer to General Rule C for the criteria to use item 6999															
GENERAL MODIFIERS GOVERNING THIS SECTION																
0011	Emergency procedures: Any bona fide, justifiable emergency procedure (all hours) undertaken in an operating theatre and/or in another setting in lieu of an operating theatre, will attract an additional 12,00 clinical procedure units per half-hour or part thereof of the operating time for all members of the surgical team. Modifier 0011 does not apply in respect of patients on scheduled lists. (A medical emergency is any condition where death or irreparable harm to the patient will result if there are undue delays in receiving appropriate medical treatment)															
0013	Endoscopic examinations done at operations: Where a related endoscopic examination is done at an operation by the operating surgeon or the attending anaesthesiologist, only 50% of the fee for the endoscopic examination may be charged															
0014	Operations previously performed by other surgeons: Where an operation is performed which has been previously performed by another surgeon, e.g. a revision or repeat operation, the fee shall be calculated according to the tariff for the full operation plus an additional fee to be negotiated under general Rule J: In exceptional cases where the fee is disproportionately low in relation to actual service rendered, except where already specified in the tariff

MODIFIERS GOVERNING THE ADMINISTRATION OF ANAESTHETICS FOR ALL PROCEDURES AND OPERATIONS																
0020	Conscious sedation: Any case that is conducted outside of a hospital theatre shall be coded with the relevant procedure code. To identify these cases, the above modifier should be used to indicate to the medical scheme that there will be no hospital/theatre account.															
0021	Determination of anaesthetic fees: Anaesthetic fees are determined by obtaining the sum of the basic anaesthetic units (allocated to each procedure that might be performed under anaesthetic as indicated in the "Anaesthetic Performed" column) plus the time units (calculated according to the formula in Modifier 0023) and the appropriate modifiers (see Modifiers 0037-0044). In cases of operative procedures on the musculoskeletal system, open fractures and open reduction of fractures or dislocations add units as laid down by Modifiers 5441 to 5448															
0023	The basic anaesthetic units are laid down in the tariff and are reflected in the anaesthetic column. These basic anaesthetic units reflect the additional anaesthetic risk, the technical skill required of the anaesthesiologist/ anaesthetist and the scope of the surgical procedure, but exclude the value of the actual time spent administering the anaesthetic. The time units (indicated by "T") will be added to the listed basic anaesthetic units in all cases on the following basis: Anaesthetic time: The remuneration for anaesthetic time shall be per 15 minute period or part thereof, calculated from the commencement of the anaesthetic, i.e. 2,00 anaesthetic units per 15 minute period or part thereof, provided that should the duration of the anaesthetic be longer than one (1) hour the number of units shall, after one (1) hour, be 3,00 anaesthetic units per 15 minute period or part thereof.

0024	Pre-operative assessments not followed by procedures: If a pre-operative assessment of a patient by the anaesthesiologist/anaesthetist is not followed by an operation, it will be regarded as a visit at hospital or nursing home and the appropriate hospital visit item should be charged.															
0025	Calculation of anaesthetic time: Anaesthetic time is calculated from the time the anaesthesiologist/ anaesthetist begins to prepare the patient for the induction of anaesthesia in the operating theatre or in a similar equivalent area and ends when the anaesthesiologist/anaesthetist is no longer required to give his/her personal professional attention to the patient, i.e. when the patient may, with reasonable safety, be placed under the customary post-operative supervision. Where prolonged personal professional attention is necessary for the well-being and safety of such patient, the necessary time will be valued on the same basis as indicated above for the anaesthetic time. The anaesthesiologist/anaesthetist must show on his/ her account the exact anaesthetic time, including the supervision time spent with the patient.															
0027	More than one procedure under the same anaesthetic: Where more than one operation is performed under the same anaesthetic, the basic anaesthetic units will be that of the major operation with the highest number of units															
0028	Indicator for use of low flow anaesthetic technique less than 1litre/minute: Fresh gas flow of less than 1 litre/ minute															
0029	Assistant anaesthesiologists: When rendered necessary by the scope of the anaesthetic, an assistant anaesthesiologist may be employed. The remuneration of the assistant anaesthesiologist shall be calculated on the same basis as in the case where a general practitioner administers the anaesthetic															
0030	Indicator for use of low flow anaesthetic technique 1-2 litre/minute: Fresh gas flow of 1 to 2 litre/minute															
0031	Intravenous drips and transfusions: Treatment with intravenous drips and transfusions is considered part of the normal treatment in administering an anaesthetic. No additional fees may be charged for such services when rendered either prior to, or during actual theatre or operating time

0032	Patients in prone position: Anaesthesia administered to patients in the prone position shall have a minimum of 4,00 basic anaesthetic units. When the basic anaesthetic units for the procedure is 3,00, one extra anaesthetic unit should be added. If the basic anaesthetic units for the procedure is 4,00 or more, no extra units should be added															
0033	Participating in general care of patients: When an anaesthesiologist/anaesthetist is required to participate in the general care of a patient during a surgical procedure, but does not administer the anaesthetic, such services may be remunerated at full anaesthetic rate, subject to the provisos of modifier 0035: Anaesthetic administered by an anaesthesiologist/ anaesthetist. and modifier 0036: Anaesthetic administered by general practitioners.															
0034	Head and neck procedures: All anaesthetics administered for diagnostic, surgical or X-ray procedures on the head and neck shall have a minimum of 4,00 basic anaesthetic units. When the basic anaesthetic units for the procedure is 3,00, one extra anaesthetic unit should be added. If the basic anaesthetic units for the procedure is 4,00 or more, no extra units should be added															
0035	Anaesthetic administered by an anaesthesiologist/ anaesthetist: No anaesthetic administered shall have a total value of less than 7,00 anaesthetic units (basic units, time units plus appropriate modifiers).															
0036	Anaesthetic administered by general practitioners: The units (basic units plus time plus the appropriate modifiers) used to calculate the fee for an anaesthetic administered by a general practitioner lasting one hour or less, shall be the same as that for an anaesthesiologist. For anaesthetic lasting more than one hour, the units used to calculate the fee for an anaesthetic administered by a general practitioner will be 4/5 (80%) of the total number of units (basic units plus time [refer to modifier 0023] plus the appropriate modifiers) applicable to an anaesthesiologist. Please note that the 4/5 (80%) principle will be applied to all anaesthetics administered by general practitioners with the proviso that no anaesthetic with a total number of units higher than 11.00 will be reduced to less than 11,00 units in total. The monetary value of the unit is the same for both an anaesthesiologist/anaesthetist.

GENERAL RULE GOVERNING ULTRASONIC EXAMINATIONS DURING PREGNANCY																
EE.	<p>Ultrasound examinations: The international norm approved for use in South Africa for NORMAL PREGNANCY is two ultrasound exams:</p> <p>(a) The first scan should preferably include a nuchal thickness estimation and be performed between 10 and 14 weeks gestation. The second scan should be performed between 20 and 24 weeks and should include a full anatomical report. All subsequent ultrasound scans are excluded from the benefits of medical schemes unless accompanied by proper motivation. An ultrasound scan to assess an abnormal early pregnancy may be formed before 10 weeks but this scan may not be used to diagnose a normal uncomplicated pregnancy. Item 3618 is a gynaecological scan and its use is not approved for use in pregnancy.</p> <p>(b) In cases where the scan is performed by the attending practitioner, a clear indication for such a scan must be entered on the account rendered, or a letter of motivation must be attached to the account (the practitioner must elect one of the two options).</p> <p>(c) In case of a referral, the referring doctor must submit a letter of motivation to the radiologist or other practitioner doing the scan. A copy of the letter of motivation must be attached to the first account rendered to the patient (by the radiologist or the other practitioner doing the scan) and must be attached to the first account submitted to the medical scheme by the patient or the doctor, as the case may be.</p> <p>(d) In case of a referral to a radiologist, no motivation should be required from the radiologist</p>

MODIFIER GOVERNING INTERVENTIONAL RADIOLOGICAL PROCEDURES																
0090	Radiologist's fee for participation in a team: 30,00 radiology units per ½ hour or part thereof for all interventional radiological procedures, excluding any pre- or post-operative angiography, catheterisation, CT-scanning, ultrasound-scanning or x-ray procedures. (Only to be charged if radiologist is hands-on, and not for interpretation of images only)															
19.15	Magnetic Resonance Imaging (MRI)															
6100	In order to charge the full fee (600,00 magnetic resonance units) for an examination of a specific single anatomical region, it should be performed with the applicable radio frequency coil including T1 and T2 weighted images on at least two planes															
6101	Where a limited series of a specific anatomical region is performed (except bone tumour), e.g a T2 weighted image of a bone for an occult stress fracture, not more than two-thirds (2/3) of the fee may be charged. Also applicable to all radiotherapy planning studies, per region															
6102	All post-contrast studies (except bone tumour), including perfusion studies, to be charges at 50% of the fee															
6103	Post-contrast study: Bone tumour: 100% of the fee															
6104	Limited examination of the hypophysis e.g. where a coronal T1 and sagittal T1 series are performed, two-thirds (2/3) of the fee is applicable															
6105	Where, in a limited hypophysis examination, Gadolinium is administered and coronal T1 and sagittal T1 series are repeated, a single full fee for the entire examination is applicable + cost of Gadolinium + disposable items															
6106	Where a magnetic resonance angiography (MRA) of large vessels is performed as primary examination, 100% of the fee is applicable. This modifier is only applicable if the series is performed by use of a recognised angiographic software package with reconstruction capability

GEMS TARIFF FOR SERVICES BY CONTRACTED PHYSICIANS
WITH EFFECT FROM 1 JANUARY 2019 FOR REO OPTIONS ONLY

Practice type: **Physicians Only**
Disciplines : **17; 18; 19; 20 ;21 and 31**

Tariff Code	Description of tariff code	CF	Units	Flag	2019 values
	<p>In calculating the GEMS Tariff, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.</p> <p>ALL GEMS TARIFFS ARE VAT INCLUSIVE.</p>				
RULES GOVERNING THE STRUCTURE					
A.	<p>Consultations: Definitions:</p> <p>(a) New and established patients: A consultation/visit refers to a clinical situation where a medical practitioner personally obtains a patient's medical history, performs an appropriate clinical examination and, if indicated, administers treatment, prescribes or assists with advice. These services must be face-to-face with the patient and excludes the time spent doing special investigations which receive additional remuneration.</p> <p>(b) Subsequent visits: Refers to a voluntarily scheduled visit performed within four (4) months after the first visit. It may imply taking down a medical history and/or a clinical examination and/or prescribing or administering of treatment and/or counselling.</p> <p>(c) Hospital visits: Where a procedure or operation was done, hospital visits are regarded as part of the normal aftercare and no fees may be levied (unless otherwise indicated). Where no procedure or operation was carried out, fees may be charged for hospital visits according to the appropriate hospital or inpatient follow-up visit code.</p>				
B.	<p>Normal hours and after hours: After-hours services are paid at the same rate as benefits for normal hours services. Bona fide emergency medical services rendered to a patient, at any time, may attract a fee as specified in modifier 0011 and items 0146 or 0147 (which should be added to the appropriate consultative services code selected from items 0190-0192, 0173-0175, 0161-0164, 0166-0169).</p>				

CONTRACTED PHYSICIANS REO CONTINUED

Practice type: **Physicians Only**
Disciplines : **17; 18; 19; 20 ;21 and 31**

Tariff Code	Description of tariff code	CF	Units	Flag	2019 values
C.	<p>Comparable services: A service may be rendered that is not listed in this edition of the coding structure. The fee that may be charged in respect of the rendering of a service not listed in this coding structure shall be based on the fee in respect of a comparable service. For these procedure(s)/service(s), item 6999: Unlisted procedure or service code, should be used. Please contact the SA Medical Association (SAMA) Private Practice Unit via e-mail on coding@samedical.org to obtain a comparable code for the unlisted procedure/service which will be based on the fee for a comparable service in the coding structure. When item 6999 is used to indicate that an unlisted service was rendered, the use of the item must be supported by a special report.</p> <p>This report must include:</p> <ol style="list-style-type: none"> (1) An adequate definition or description of the nature, extent and need for the procedure/service or “medical necessity”; (2) In which respect is this service unusual or different in technique, compared to available procedures/services listed in the coding structure? Information regarding the nature and extent of the procedure/service, time and effort, special/ dedicated equipment needed to provide this service, must be included in the report; (3) Is this procedure/service medically appropriate under the circumstances? Explain why another procedure/service listed in the coding structure will not be appropriate in this case; (4) A description of the complexity of the symptoms and concurrent problems must be supplied; (5) Final diagnosis supported by the appropriate ICD-10 code(s); (6) Pertinent physical findings (size, location and number of lesions if applicable); (7) Mention any other diagnostic or therapeutic procedure(s)/service(s) provided at the same session; (8) Any further diagnostic or therapeutic procedure(s)/service(s) to be provided in the follow-up period; and (9) Description of the follow-up care needed. Please note: This comparable service code may not be used for a period longer than six months for a particular procedure/service after which time an application has to be made for the addition of a specific code for this procedure. 				
D.	<p>Cancellation of appointments: Unless timely steps are taken to cancel an appointment for a consultation, the relevant consultation fee may be charged. In the case of a General Practitioner “timely” shall mean two hours and in the case of a specialist 24 hours prior to the appointment. Each case shall, however, be considered on merit and, if circumstances warrant, no fee shall be charged. If a patient has not turned up for a procedure, each member of the surgical team is entitled to charge for a visit at or away from doctor’s rooms as the case may be.</p>				
E.	<p>Pre-operative visits: The appropriate fee may be charged for all pre-operative visits with the exception of a routine pre-operative visit at the hospital.</p>				
F.	<p>Administering of injections and/or infusions: Where applicable, fees for administering injections and/or infusions may only be charged when done by the practitioner himself.</p>

G.	<p>Post-operative care:</p> <p>(a) Unless otherwise stated, the fee in respect of an operation or procedure shall include normal aftercare for a period not exceeding ONE month (aftercare is excluded from pure diagnostic procedures during which no therapeutic procedures were performed).</p> <p>(b) If the normal aftercare is delegated to any other registered health professional and not completed by the surgeon, it shall be his/her own responsibility to arrange for this to be done without extra charge.</p> <p>(c) When post-operative care/treatment of a prolonged or specialised nature is required, such fee as may be agreed upon between the surgeon and the scheme or the patient (in case of a private account) may be charged.</p> <p>(d) Normal aftercare refers to an uncomplicated post-operative period not requiring any further incisions.</p>				
H.	Removal of lesions: Items involving removal of lesions include follow-up treatment for 10 days				
J.	Disproportionately low fees: In exceptional cases where the fee is disproportionately low in relation to the actual services rendered by a medical practitioner, a higher fee may be negotiated. The use of this rule is not intended merely to increase the Medical Schemes Benefits.				
K.	Practice of specialists: In terms of the conditions in respect of the practice of specialists as published in Government Gazette No. 12958 of 11 January 1991, a specialist may treat any person who comes to him direct for consultation. A specialist who is consulted by a patient or who treats a patient, shall take all reasonable steps to ensure the collaboration of the patient's General Practitioner. Medical practitioners referring cases to other medical practitioners shall indicate in the reference whether the patient is a member of a medical scheme or a dependant of such member. This also applies in respect of specimens sent to pathologists.				
L.	Procedures performed at time of visits: If a procedure is performed at the time of a consultation/visit, the fee for the visit PLUS the fee for the procedure is charged.				
M.	Procedure planned to be performed later: In cases where, during a consultation/visit, a procedure is planned to be performed at a later occasion, a visit may not be charged for again, at such a later occasion.				
N.	"Per consultation": No additional fee may be charged for a service for which the fee is indicated as "per consultation". Such services are regarded as part of the consultation/visit performed at the time the condition is brought to the doctor's attention.				
O.	Costly or prolonged medical services or procedures: In the case of costly or prolonged medical services or procedures, the medical practitioner shall first ascertain from the medical scheme for what amount the medical scheme will accept responsibility in respect of such treatment, should the practitioner wish any direct payment from the scheme.

U.	Obstetric procedures: (a) When a General Practitioner treats a patient in the ante-natal period and, after starting the confinement, requests an obstetrician to take over the case, the General Practitioner shall be entitled to charge for all the ante-natal consultations he/she has performed. (i) If the patient has been in labour for less than 6 hours, the General Practitioner shall charge 50,00 clinical procedure units according to item 2614: Global obstetric care. (ii) If the patient has been in labour for more than 6 hours, the General Practitioner shall charge 80,00 clinical procedure units according to item 2614: Global obstetric care. (b) When a General Practitioner calls an obstetrician to help with a confinement, take over the management of a confinement, and treats the patient until after the post-partum visit, the obstetrician shall charge according to item 2614: Global obstetric care. (c) When a General Practitioner calls an obstetrician (specialist or General Practitioner) to help with a confinement, or take over the management of a confinement, but the General Practitioner treats the patient until after the post-partum visit, the obstetrician shall charge according to item 2616: Intrapartum obstetric care by obstetrician in consultation, and the General Practitioner according to item 2614: Global obstetric care.				
V.	(a) Electro-convulsive treatment: Visits at hospital or nursing home during a course of electro-convulsive treatment are justified and may be charged for in addition to the fees for the procedure. (b) Except where otherwise indicated, the duration of a medical psychotherapeutic session is set at 20 minutes or part thereof, provided that such a part comprises 50% or more of the time of a session. This set duration is also applicable for psychiatric examination methods.				
Y.	Except where otherwise indicated, radiologists are entitled to charge for contrast material used				
Z.	No fee is subject to more than one reduction				
AA.	Procedures to exclude cost of isotope

If further treatment is required at the end of this period of treatment, it should be negotiated with the patient.</p> <p>(d) Item 0380 refers to scalp acupuncture as a treatment in its own right and not to the use of acupuncture points on the scalp.</p>				
EE.	<p>Ultrasound examinations: The international norm approved for use in South Africa for NORMAL PREGNANCY is two ultrasound exams:</p> <p>(a) The first scan should preferably include a nuchal thickness estimation and be performed between 10 and 14 weeks gestation. The second scan should be performed between 20 and 24 weeks and should include a full anatomical report. All subsequent ultrasound scans are excluded from the benefits of medical schemes unless accompanied by proper motivation. An ultrasound scan to assess an abnormal early pregnancy may be formed before 10 weeks but this scan may not be used to diagnose a normal uncomplicated pregnancy. Item 3618 is a gynaecological scan and its use is not approved for use in pregnancy.</p> <p>(b) In cases where the scan is performed by the attending practitioner, a clear indication for such a scan must be entered on the account rendered, or a letter of motivation must be attached to the account (the practitioner must elect one of the two options).</p> <p>(c) In case of a referral, the referring doctor must submit a letter of motivation to the radiologist or other practitioner doing the scan. A copy of the letter of motivation must be attached to the first account rendered to the patient (by the radiologist or the other practitioner doing the scan) and must be attached to the first account submitted to the medical scheme by the patient or the doctor, as the case may be.</p> <p>(d) In case of a referral to a radiologist, no motivation should be required from the radiologist</p>				
FF.	<p>(a) When a cystoscopy precedes a related operation, Modifier 0013: Endoscopic examination done at an operation, applies, e.g. cystoscopy followed by transurethral (TUR) prostatectomy.</p> <p>(b) When a cystoscopy precedes an unrelated operation, Modifier 0005: Multiple procedures/operations under the same anaesthetic, applies, e.g. cystoscopy for urinary tract infection followed by inguinal hernia repair.</p> <p>(c) No modifier applies to item 1949: Cystoscopy, when performed together with any of items 1951 to 1973.</p>				
GG.	<p>Capturing and recording of examinations: Images from all radiological, ultrasound and magnetic resonance imaging procedures must be captured during every examination and a permanent record generated by means of film, paper, or magnetic media. A report of the examination, including the findings and diagnostic comment, must be written and stored for five years.</p>

Tariff Code	Description of tariff code				
RR.	The radiology section in this price list is not for use by registered specialist radiology practices (Pr No “038”) or nuclear medicine practices (Pr No “025”), but only for use by other specialist practices or general practitioners. A separate radiology schedule is for the exclusive use of registered specialist radiology practices (Pr No “038”) and nuclear medicine practices (Pr No “025”).				
XX.	Diagnostic services rendered to hospital inpatients: Quote Modifier 0091 on all accounts for diagnostic services (e.g. MRI, X-rays, pathology tests) performed on patients officially admitted to hospital or day clinic.				
YY.	Diagnostic services rendered to outpatients: Quote Modifier 0092 on all accounts for diagnostic services (e.g. MRI, X-rays, pathology tests) performed on patients NOT officially admitted to hospital or day clinic (could be within the confines of a hospital).				
MODIFIERS GOVERNING THE STRUCTURE					
0002	Written report on X-rays: The lowest level code for a new patient office (consulting rooms) visit, is applicable only where a radiologist is requested to give a written report on X-rays taken elsewhere and submitted to him. The above mentioned item and the lowest level initial hospital visit code, as appropriate are not to be used for routine reporting of X-rays taken elsewhere.				
0004	Procedures performed in own procedure rooms: Procedures performed in doctors’ own procedure rooms instead of in a hospital theatre or unattached theatre unit: as per fee for procedure + 100% (the value of modifier 0004 equals 100% of the value of the procedure performed). See Section V (Section G in SAMA’s DBT) for a list of procedures, which are often done in rooms to which Modifier 0004 should not be applied. Please note: Only the medical practitioner who owns the facility and the equipment may charge modifier 0004. Only one person may claim this modifier for procedures performed in doctors’ own procedure rooms.

Tariff Code	Description of tariff code	CF	Units	Flag	2019 values
0005	<p>Multiple therapeutic procedures/operations under the same anaesthetic:</p> <p>a) Unless otherwise identified in the tariff when multiple therapeutic procedures/operations add significant time and/or complexity, and when each procedure/operation is clearly identified and defined, the following values shall prevail: 100% (full value) for the first or major procedure/operation, 75% for the second procedure/operation, 50% for the third procedure/operation, 25% for the fourth and subsequent procedures/operations. This modifier does not apply to purely diagnostic procedures.</p> <p>b) In the case of multiple fractures and/or dislocations the above values shall prevail.</p> <p>c) When purely diagnostic endoscopic procedures or diagnostic endoscopic procedures unrelated to any therapeutic procedures performed, are performed under the same general anaesthetic, Modifier 0005 is not applicable to the fees for such diagnostic endoscopic procedures as the fees for endoscopic procedures do not provide for aftercare. Specify unrelated endoscopic procedure and provide diagnosis to indicate diagnostic endoscopic procedure(s) unrelated to other (therapeutic) procedures performed under the same anaesthetic.</p> <p>d) Please note: When more than one small procedure is performed and the tariff makes provision for items for “subsequent” or “maximum for multiple additional procedures” (see Section 2. Integumentary System) Modifier 0005 is not applicable as the fee is already a reduced fee.</p> <p>e) “+” Means that this item is used in addition to another definitive procedure and is therefore not subject to reduction according to Modifier 0005 (see also Modifier 0082)</p>				
0006	<p>Visiting specialists performing procedures: Where specialists visit smaller centres to perform procedures, fees for these particular procedures are exclusive of aftercare. The referring practitioner will then be entitled to subsequent hospital visits for aftercare. If the referring practitioner is not available, the specialist shall, on consultation with the patient, choose an appropriate locum tenens. Both the surgeon and the practitioner who handled the aftercare, must in such instances quote Modifier 0006 with the particular items which they use.</p>				
0007	<p>a) Use of own monitoring equipment in the rooms: Remuneration for the use of any type of own monitoring equipment in the rooms for procedures performed under intravenous sedation - 15,00 clinical procedure units irrespective of the number of items of equipment provided.</p> <p>b) Use of own equipment in hospital theatre or unattached theatre unit: Remuneration for the use of any type of own equipment for procedures performed in a hospital theatre or unattached theatre unit when appropriate equipment is not provided by the hospital - 15,00 clinical procedure units irrespective of the number of items of equipment provided.</p> <p>c) Not funded for all disciplines when using tariff code 5103</p>	20	15,000		R209,50
0008	<p>Specialist surgeon assistant: Where a procedure requires a registered specialist surgeon assistant, the fee is 33,33% (1/3) of the fee for the specialist surgeon.</p>

0009	Assistant: The fee for an assistant is 20% of the fee for the specialist surgeon, with a minimum of 36,00 clinical procedure units. The minimum fee payable may not be less than 36,00 clinical procedures units				
0010	Local anaesthetic: (a) A fee for a local anaesthetic administered by the operator may only be charged for (1) an operation or procedure having a value greater than 30,00 clinical procedure units (i.e. 31,00 or more clinical procedure units allocated to a single item) or (2) where more than one operation or procedure is done at the same time with a combined value greater than 50,00 clinical procedure units. (b) The fee shall be calculated according to the basic anaesthetic units for the specific operation. Anaesthetic time may not be charged for, but the minimum fee as per Modifier 0036: Anaesthetic administered by a General Practitioner, shall be applicable in such a case. (c) Not applicable to radiological procedures (such as angiography and myelography). (d) No fee may be levied for topical application of local anaesthetic. (e) Please note: Modifier 0010: Local anaesthetic administered by the operator, may not be added on the surgeon's account for procedures that were performed under general anaesthetic.				
0011	Emergency procedures: Any bona fide, justifiable emergency procedure (all hours) undertaken in an operating theatre and/or in another setting in lieu of an operating theatre, will attract an additional 12,00 clinical procedure units per half-hour or part thereof of the operating time for all members of the surgical team. Modifier 0011 does not apply in respect of patients on scheduled lists. (A medical emergency is any condition where death or irreparable harm to the patient will result if there are undue delays in receiving appropriate medical treatment)				
0013	Endoscopic examinations done at operations: Where a related endoscopic examination is done at an operation by the operating surgeon or the attending anaesthesiologist, only 50% of the fee for the endoscopic examination may be charged.				
0014	Operations previously performed by other surgeons: Where an operation is performed which has been previously performed by another surgeon, e.g. a revision or repeat operation, the fee shall be calculated according to the tariff for the full operation plus an additional fee to be negotiated under general Rule J: In exceptional cases where the fee is disproportionately low in relation to actual service rendered, except where already specified in the tariff.				
0015	Intravenous infusions: Where intravenous infusions (including blood and blood cellular products) are administered as part of the after-treatment after the operation or confinement, no extra fees shall be charged as this is included in the global operative or maternity fees. Should the practitioner doing the operation or attending to the maternity case prefer to ask another practitioner to perform post-operative or post-confinement intravenous infusions, then the practitioner himself (and not the patient) shall be responsible for remunerating such practitioner for the infusions.

0018	Surgical modifier for persons with a BMI of 35> (calculated according to kg/m2): Fee for procedure +50% for surgeons and a 50% increase in anaesthetic time units for anaesthesiologists				
0019	Surgery on neonates (up to and including 28 days after birth) and low birth weight infants (less than 2500g) under general anaesthesia (excluding circumcision): per fee for procedure + 50% for surgeons and a 50% increase in anaesthetic time units for anaesthesiologists				
0046	Where in the treatment of a specific fracture or dislocation (compound or closed) an initial procedure is followed within one month by an open reduction, internal fixation, external skeletal fixation or bone grafting on the same bone, the fee for the initial treatment of that fracture or dislocation shall be reduced by 50%. Please note: This reduction does not include the assistant's fee where applicable. After one month, a full fee as for the initial treatment, is applicable				
0047	A fracture NOT requiring reduction shall be charged on a fee per service basis				
0048	Where in the treatment of a fracture or dislocation, an initial closed reduction is followed within one month by further closed reductions under general anaesthesia, the fee for such subsequent reductions will be 27,00 clinical procedure units (not including aftercare)	20	27,000		R377,20

6104	Limited examination of the hypophysis e.g. where a coronal T1 and sagittal T1 series are performed, two-thirds (2/3) of the fee is applicable				
6105	Where, in a limited hypophysis examination, Gadolinium is administered and coronal T1 and sagittal T1 series are repeated, a single full fee for the entire examination is applicable + cost of Gadolinium + disposable items				
6106	Where a magnetic resonance angiography (MRA) of large vessels is performed as primary examination, 100% of the fee is applicable. This modifier is only applicable if the series is performed by use of a recognised angiographic software package with reconstruction capability				
6107	Where a magnetic resonance angiography (MRA) of the vessels is performed additional to an examination of a particular region, 50% of the fee is applicable for the angiography. This modifier is only applicable if the series is performed by use of a recognised angiographic software package with reconstruction capability				
6108	Where only a gradient echo series is performed with a machine without a recognised angiographic software package with reconstruction ability, 20% of the full fee is applicable specifying that it is a "flow sensitive series"				
6109	Very limited studies to be charged at 33,33% of the full fee e.g. MR urography for renal colic, diffusion studies of the brain additional to routine brain				
6110	MRI spectroscopy: 50% of fee				
6300	If a procedure lasts less than 30 minutes, only 50% of the machine fees for items 3536-3550 will be allowed (specify time of procedure on account)				
6301	If a procedure is performed by a radiologist in a facility not owned by himself, the fee will be reduced by 40% (i.e. 60% of the fee will be charged)				
6302	When the procedure is performed by a non-radiologist, the fee will be reduced by 40% (i.e. 60% of the fee will be charged)				
6303	When a procedure is performed entirely by a non-radiologist in a facility owned by a radiologist, the radiologist owning the facility may charge 55% of the procedure units used. Modifier 6302 applies to the non radiologist performing the procedure				
6305	When multiple catheterisation procedures are used (items 3557, 3559, 3560, 3562) and an angiogram investigation is performed at each level, the unit value of each such multiple procedure will be reduced by 20,00 radiological units for each procedure after the initial catheterisation. The first catheterisation is charged at 100% of the unit value

GENERAL MODIFIERS GOVERNING THIS SECTION					
0011	Emergency procedures: Any bona fide, justifiable emergency procedure (all hours) undertaken in an operating theatre and/or in another setting in lieu of an operating theatre, will attract an additional 12,00 clinical procedure units per half-hour or part thereof of the operating time for all members of the surgical team. Modifier 0011 does not apply in respect of patients on scheduled lists. (A medical emergency is any condition where death or irreparable harm to the patient will result if there are undue delays in receiving appropriate medical treatment)				
0013	Endoscopic examinations done at operations: Where a related endoscopic examination is done at an operation by the operating surgeon or the attending anaesthesiologist, only 50% of the fee for the endoscopic examination may be charged				
0014	Operations previously performed by other surgeons: Where an operation is performed which has been previously performed by another surgeon, e.g. a revision or repeat operation, the fee shall be calculated according to the tariff for the full operation plus an additional fee to be negotiated under general Rule J: In exceptional cases where the fee is disproportionately low in relation to actual service rendered, except where already specified in the tariff				
MODIFIERS GOVERNING SECTION 1					
0015	Intravenous infusions: Where intravenous infusions (including blood and blood cellular products) are administered as part of the after-treatment after the operation or confinement, no extra fees shall be charged as this is included in the global operative or maternity fees. Should the practitioner doing the operation or attending to the maternity case prefer to ask another practitioner to perform post-operative or post-confinement intravenous infusions, then the practitioner himself (and not the patient) shall be responsible for remunerating such practitioner for the infusions				
0017	Injections administered by practitioners: When desensitisation, intravenous, intramuscular or subcutaneous injections are administered by the practitioner him-/herself to patients who attend the consulting rooms, a first injection forms part of the consultation/visit and only all subsequent injections for the same condition should be charged at 7.50 consultative services units using modifier 0017 to reflect the amount (not chargeable together with a consultation item)	10	7,500		R220,20

MODIFIERS GOVERNING THE ADMINISTRATION OF ANAESTHETICS FOR ALL PROCEDURES AND OPERATIONS					
0020	Conscious sedation: Any case that is conducted outside of a hospital theatre shall be coded with the relevant procedure code. To identify these cases, the above modifier should be used to indicate to the medical scheme that there will be no hospital/theatre account.				
0021	Determination of anaesthetic fees: Anaesthetic fees are determined by obtaining the sum of the basic anaesthetic units (allocated to each procedure that might be performed under anaesthetic as indicated in the "Anaesthetic Performed" column) plus the time units (calculated according to the formula in Modifier 0023) and the appropriate modifiers (see Modifiers 0037-0044). In cases of operative procedures on the musculoskeletal system, open fractures and open reduction of fractures or dislocations add units as laid down by Modifiers 5441 to 5448				
0023	The basic anaesthetic units are laid down in the tariff and are reflected in the anaesthetic column. These basic anaesthetic units reflect the additional anaesthetic risk, the technical skill required of the anaesthesiologist/anaesthetist and the scope of the surgical procedure, but exclude the value of the actual time spent administering the anaesthetic. The time units (indicated by "T") will be added to the listed basic anaesthetic units in all cases on the following basis: Anaesthetic time: The remuneration for anaesthetic time shall be per 15 minute period or part thereof, calculated from the commencement of the anaesthetic, i.e. 2,00 anaesthetic units per 15 minute period or part thereof, provided that should the duration of the anaesthetic be longer than one (1) hour the number of units shall, after one (1) hour, be 3,00 anaesthetic units per 15 minute period or part thereof.				
0024	Pre-operative assessments not followed by procedures: If a pre-operative assessment of a patient by the anaesthesiologist/anaesthetist is not followed by an operation, it will be regarded as a visit at hospital or nursing home and the appropriate hospital visit item should be charged.

Tariff Code	Description of tariff code	CF	Units	Flag	2019 values
0025	Calculation of anaesthetic time: Anaesthetic time is calculated from the time the anaesthesiologist/anaesthetist begins to prepare the patient for the induction of anaesthesia in the operating theatre or in a similar equivalent area and ends when the anaesthesiologist/anaesthetist is no longer required to give his/her personal professional attention to the patient, i.e. when the patient may, with reasonable safety, be placed under the customary post-operative supervision. Where prolonged personal professional attention is necessary for the well-being and safety of such patient, the necessary time will be valued on the same basis as indicated above for the anaesthetic time. The anaesthesiologist/anaesthetist must show on his/her account the exact anaesthetic time, including the supervision time spent with the patient.				
0027	More than one procedure under the same anaesthetic: Where more than one operation is performed under the same anaesthetic, the basic anaesthetic units will be that of the major operation with the highest number of units				
0028	Indicator for use of low flow anaesthetic technique less than 1litre/minute: Fresh gas flow of less than 1 litre/minute				
0029	Assistant anaesthesiologists: When rendered necessary by the scope of the anaesthetic, an assistant anaesthesiologist may be employed. The remuneration of the assistant anaesthesiologist shall be calculated on the same basis as in the case where a General Practitioner administers the anaesthetic				
0030	Indicator for use of low flow anaesthetic technique 1-2 litre/minute: Fresh gas flow of 1 to 2 litre/minute				
0031	Intravenous drips and transfusions: Treatment with intravenous drips and transfusions is considered part of the normal treatment in administering an anaesthetic. No additional fees may be charged for such services when rendered either prior to, or during actual theatre or operating time				
0032	Patients in prone position: Anaesthesia administered to patients in the prone position shall have a minimum of 4,00 basic anaesthetic units. When the basic anaesthetic units for the procedure is 3,00, one extra anaesthetic unit should be added. If the basic anaesthetic units for the procedure is 4,00 or more, no extra units should be added				
0033	Participating in general care of patients: When an anaesthesiologist/anaesthetist is required to participate in the general care of a patient during a surgical procedure, but does not administer the anaesthetic, such services may be remunerated at full anaesthetic rate, subject to the provisos of modifier 0035: Anaesthetic administered by an anaesthesiologist/anaesthetist. and modifier 0036: Anaesthetic administered by general practitioners.				
0034	Head and neck procedures: All anaesthetics administered for diagnostic, surgical or X-ray procedures on the head and neck shall have a minimum of 4,00 basic anaesthetic units. When the basic anaesthetic units for the procedure is 3,00, one extra anaesthetic unit should be added. If the basic anaesthetic units for the procedure is 4,00 or more, no extra units should be added				
0035	Anaesthetic administered by an anaesthesiologist/anaesthetist: No anaesthetic administered shall have a total value of less than 7,00 anaesthetic units (basic units, time units plus appropriate modifiers).

0036	Anaesthetic administered by general practitioners: The units (basic units plus time plus the appropriate modifiers) used to calculate the fee for an anaesthetic administered by a General Practitioner lasting one hour or less, shall be the same as that for an anaesthesiologist. For anaesthetic lasting more than one hour, the units used to calculate the fee for an anaesthetic administered by a General Practitioner will be 4/5 (80%) of the total number of units (basic units plus time [refer to modifier 0023] plus the appropriate modifiers) applicable to an anaesthesiologist. Please note that the 4/5 (80%) principle will be applied to all anaesthetics administered by general practitioners with the proviso that no anaesthetic with a total number of units higher than 11.00 will be reduced to less than 11,00 units in total. The monetary value of the unit is the same for both an anaesthesiologist/anaesthetist.				
0037	Body hypothermia: Utilisation of total body hypothermia: Add 3,00 anaesthetic units

0050	In cases of a compound fracture where a debridement is followed by internal fixation (excluding fixation with Kirschner wires, as well as fractures of hands and feet), the full amount according to either Modifier 0049: Cases of compound fractures, or Modifier 0051: Fractures requiring open reduction, internal fixation, external skeletal fixation and/or bone grafting, may be added to the fee for the procedure involved, plus half of the amount according to the second modifier (either Modifier 0049: Cases of compound fractures or Modifier 0051: Fractures requiring open reduction, internal fixation, external skeletal fixation and/or bone grafting, as applicable)	20	115,500		R1 613,00
0051	Fractures requiring open reduction, internal fixation, external skeletal fixation and/or bone grafting: Specialists add 77,00 clinical procedure units. General practitioners add 77,00 clinical procedure units	20	77,000		R1 075,50
0052	Except where otherwise specified, fracture (traumatic or surgical, ie. osteotomy) requiring open reduction and/or internal fixation, external skeletal fixation/and or bone grafting (excluding fixation with Kirschner wires (refer to modifier 0053), as well as long bone or pelvis fracture/osteotomy (refer to modifier 0051) for specialist and general practitioners for HAND or FOOT fracture/osteotomy: Add		81,100		R1 132,20
0053	Fracture requiring percutaneous internal fixation [insertion and removal of fixatives (wires) in respect of fingers and toes included]: Specialists and general practitioners add 32,00 clinical procedure units	20	32,000		R446,90
0055	Dislocation requiring open reduction: Units for the specific joint plus 77,00 clinical procedure units for specialists. General practitioners add 77,00 clinical procedure units	20	77,000		R1 075,50
0057	Multiple procedures on feet: In multiple procedures on feet, fees for the first foot are calculated according to Modifier 0005: Multiple procedures/operations under the same anaesthetic. Calculate fees for the second foot in the same way, reduce the total to 75% and add to the total for the first foot				
0058	Revision operation for total joint replacement and immediate re-substitution (infected or non-infected): per fee for total joint replacement + 100%				
3.1	Bones				
3.1.1	Bones: Fractures (reduction under general anaesthetic - refer to modifier 0047)				
0383	Fracture (reduction under general anaesthetic): Scapula	20	3,000		R1 567,90
0384	Fracture: Scapula: Open reduction and internal fixation (modifiers 0051, 0052 not applicable)		284,200		R3 967,80

RULES GOVERNING THIS SECTION					
Q.	Intensive care/High Care: Units in respect of items 1204 to 1210 (Categories 1 to 3) EXCLUDE the following: (a) Anaesthetic and/or surgical fees for any condition or procedure, as well as a first consultation/visit, which is, regarded as the assessment of the patient, while the daily intensive care/high care fee covers the daily care in the intensive/high care unit. (b) Cost of any drugs and/or materials. (c) Any other cost which may be incurred before, during or after the consultation/visit and/or the therapy. (d) Blood gases and chemistry tests, including the arterial puncture to obtain the specimen. (e) Procedural items 1202 and 1212 to 1221. but INCLUDE the following: (f) Performing and interpretation of a resting ECG. (g) Interpretation of chemistry tests and x-rays. (h) Intravenous treatment (items 0206 and 0207), except intravenous infusion in patients under the age of three years (item 0205) that does not form a part of the daily ICU/High Care fee and may be charged for separately on a daily basis (fee includes the introduction of the cannula as well as the daily management)				
R.	Multiple organ failure: Units for items 1208, 1209 and 1210 (Category 3: Cases with multiple organ failure) include resuscitation (i.e. item 1211: Cardio-respiratory resuscitation)				
S.	Ventilation: Units for items 1212, 1213 and 1214 (ventilation) include the following: (a) Measurement of minute volume, vital capacity, time- and vital capacity studies. (b) Testing and connecting the machine. (c) Putting patient on machine: setting machine, synchronising patient with machine. (d) Instruction to nursing staff. (e) All subsequent visits for 24 hours.				
T.	Ventilation (items 1212 to 1214) does not form a part of normal post-operative care, but may not be added to item 1204: Category 1: Cases requiring intensive monitoring

GENERAL RULE GOVERNING ULTRASONIC EXAMINATIONS DURING PREGNANCY					
EE.	Ultrasound examinations: The international norm approved for use in South Africa for NORMAL PREGNANCY is two ultrasound exams: (a) The first scan should preferably include a nuchal thickness estimation and be performed between 10 and 14 weeks gestation. The second scan should be performed between 20 and 24 weeks and should include a full anatomical report. All subsequent ultrasound scans are excluded from the benefits of medical schemes unless accompanied by proper motivation. An ultrasound scan to assess an abnormal early pregnancy may be formed before 10 weeks but this scan may not be used to diagnose a normal uncomplicated pregnancy. Item 3618 is a gynaecological scan and its use is not approved for use in pregnancy. (b) In cases where the scan is performed by the attending practitioner, a clear indication for such a scan must be entered on the account rendered, or a letter of motivation must be attached to the account (the practitioner must elect one of the two options). (c) In case of a referral, the referring doctor must submit a letter of motivation to the radiologist or other practitioner doing the scan. A copy of the letter of motivation must be attached to the first account rendered to the patient (by the radiologist or the other practitioner doing the scan) and must be attached to the first account submitted to the medical scheme by the patient or the doctor, as the case may be. (d) In case of a referral to a radiologist, no motivation should be required from the radiologist

19.15	Magnetic Resonance Imaging (MRI)				
6100	In order to charge the full fee (600,00 magnetic resonance units) for an examination of a specific single anatomical region, it should be performed with the applicable radio frequency coil including T1 and T2 weighted images on at least two planes				
6101	Where a limited series of a specific anatomical region is performed (except bone tumour), e.g a T2 weighted image of a bone for an occult stress fracture, not more than two-thirds (2/3) of the fee may be charged. Also applicable to all radiotherapy planning studies, per region				
6102	All post-contrast studies (except bone tumour), including perfusion studies, to be charges at 50% of the fee				
6103	Post-contrast study: Bone tumour: 100% of the fee				
6104	Limited examination of the hypophysis e.g. where a coronal T1 and sagittal T1 series are performed, two-thirds (2/3) of the fee is applicable				
6105	Where, in a limited hypophysis examination, Gadolinium is administered and coronal T1 and sagittal T1 series are repeated, a single full fee for the entire examination is applicable + cost of Gadolinium + disposable items				
6106	Where a magnetic resonance angiography (MRA) of large vessels is performed as primary examination, 100% of the fee is applicable. This modifier is only applicable if the series is performed by use of a recognised angiographic software package with reconstruction capability				
6107	Where a magnetic resonance angiography (MRA) of the vessels is performed additional to an examination of a particular region, 50% of the fee is applicable for the angiography. This modifier is only applicable if the series is performed by use of a recognised angiographic software package with reconstruction capability				
6108	Where only a gradient echo series is performed with a machine without a recognised angiographic software package with reconstruction ability, 20% of the full fee is applicable specifying that it is a “flow sensitive series”				
6109	Very limited studies to be charged at 33,33% of the full fee e.g. MR urography for renal colic, diffusion studies of the brain additional to routine brain				
6110	MRI spectroscopy: 50% of fee				
	Please note: The calculated amounts in this section are calculated according to the magnetic resonance imaging unit value.

When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.</p> <p>ALL GEMS TARIFFS ARE VAT INCLUSIVE.</p>			
RULES GOVERNING THE STRUCTURE				
A.	<p>Consultations: Definitions:</p> <p>(a) New and established patients: A consultation/visit refers to a clinical situation where a medical practitioner personally obtains a patient's medical history, performs an appropriate clinical examination and, if indicated, administers treatment, prescribes or assists with advice. These services must be face-to-face with the patient and excludes the time spent doing special investigations which receive additional remuneration.</p> <p>(b) Subsequent visits: Refers to a voluntarily scheduled visit performed within four (4) months after the first visit. It may imply taking down a medical history and/or a clinical examination and/or prescribing or administering of treatment and/or counselling.</p> <p>(c) Hospital visits: Where a procedure or operation was done, hospital visits are regarded as part of the normal aftercare and no fees may be levied (unless otherwise indicated). Where no procedure or operation was carried out, fees may be charged for hospital visits according to the appropriate hospital or inpatient follow-up visit code.</p>			
B.	<p>Normal hours and after hours: After-hours services are paid at the same rate as benefits for normal hours services. Bona fide emergency medical services rendered to a patient, at any time, may attract a fee as specified in modifier 0011 and items 0146 or 0147 (which should be added to the appropriate consultative services code selected from items 0190-0192, 0173-0175, 0161-0164, 0166-0169)</p>

C.	<p>Comparable services: A service may be rendered that is not listed in this edition of the coding structure. The fee that may be charged in respect of the rendering of a service not listed in this coding structure shall be based on the fee in respect of a comparable service. For these procedure(s)/service(s), item 6999: Unlisted procedure or service code, should be used. Please contact the SA Medical Association (SAMA) Private Practice Unit via e-mail on coding@samedical.org to obtain a comparable code for the unlisted procedure/service which will be based on the fee for a comparable service in the coding structure. When item 6999 is used to indicate that an unlisted service was rendered, the use of the item must be supported by a special report. This report must include:</p> <ol style="list-style-type: none"> (1) An adequate definition or description of the nature, extent and need for the procedure/service or “medical necessity”; (2) In which respect is this service unusual or different in technique, compared to available procedures/services listed in the coding structure? Information regarding the nature and extent of the procedure/service, time and effort, special/dedicated equipment needed to provide this service, must be included in the report; (3) Is this procedure/service medically appropriate under the circumstances? Explain why another procedure/service listed in the coding structure will not be appropriate in this case; (4) A description of the complexity of the symptoms and concurrent problems must be supplied; (5) Final diagnosis supported by the appropriate ICD-10 code(s); (6) Pertinent physical findings (size, location and number of lesions if applicable); (7) Mention any other diagnostic or therapeutic procedure(s)/service(s) provided at the same session; (8) Any further diagnostic or therapeutic procedure(s)/service(s) to be provided in the follow-up period; and (9) Description of the follow-up care needed. Please note: This comparable service code may not be used for a period longer than six months for a particular procedure/service after which time an application has to be made for the addition of a specific code for this procedure 			
D.	<p>Cancellation of appointments: Unless timely steps are taken to cancel an appointment for a consultation, the relevant consultation fee may be charged. In the case of a General Practitioner “timely” shall mean two hours and in the case of a specialist 24-hours prior to the appointment. Each case shall, however, be considered on merit and, if circumstances warrant, no fee shall be charged. If a patient has not turned up for a procedure, each member of the surgical team is entitled to charge for a visit at or away from doctor’s rooms as the case may be</p>			
E.	<p>Pre-operative visits: The appropriate fee may be charged for all pre-operative visits with the exception of a routine pre-operative visit at the hospital</p>			
F.	<p>Administering of injections and/or infusions: Where applicable, fees for administering injections and/or infusions may only be charged when done by the practitioner himself</p>

K.	Practice of specialists: In terms of the conditions in respect of the practice of specialists as published in Government Gazette No. 12958 of 11 January 1991, a specialist may treat any person who comes to him direct for consultation. A specialist who is consulted by a patient or who treats a patient, shall take all reasonable steps to ensure the collaboration of the patient's General Practitioner . Medical practitioners referring cases to other medical practitioners shall indicate in the reference whether the patient is a member of a medical scheme or a dependant of such member. This also applies in respect of specimens sent to pathologists			
L.	Procedures performed at time of visits: If a procedure is performed at the time of a consultation/visit, the fee for the visit PLUS the fee for the procedure is charged			
M.	Procedure planned to be performed later: In cases where, during a consultation/visit, a procedure is planned to be performed at a later occasion, a visit may not be charged for again, at such a later occasion			
N.	"Per consultation": No additional fee may be charged for a service for which the fee is indicated as "per consultation". Such services are regarded as part of the consultation/visit performed at the time the condition is brought to the doctor's attention			
O.	Costly or prolonged medical services or procedures: In the case of costly or prolonged medical services or procedures, the medical practitioner shall first ascertain from the medical scheme for what amount the medical scheme will accept responsibility in respect of such treatment, should the practitioner wish any direct payment from the scheme

Tariff Code	Description of tariff code	CF	Units	2019 Values
MODIFIERS GOVERNING THE STRUCTURE				
0002	Written report on X-rays : The lowest level code for a new patient office (consulting rooms) visit, is applicable only where a radiologist is requested to give a written report on X-rays taken elsewhere and submitted to him. The above mentioned item and the lowest level initial hospital visit code, as appropriate are not to be used for routine reporting of X-rays taken elsewhere			
0004	Procedures performed in own procedure rooms: Procedures performed in doctors' own procedure rooms instead of in a hospital theatre or unattached theatre unit: as per fee for procedure + 100% (the value of modifier 0004 equals 100% of the value of the procedure performed). See Section V (Section G in SAMA's DBT) for a list of procedures, which are often done in rooms to which Modifier 0004 should not be applied. Please note: Only the medical practitioner who owns the facility and the equipment may charge modifier 0004. Only one person may claim this modifier for procedures performed in doctors' own procedure rooms			
0005	<p>Multiple therapeutic procedures/operations under the same anaesthetic:</p> <p>a) Unless otherwise identified in the tariff when multiple therapeutic procedures/operations add significant time and/or complexity, and when each procedure/operation is clearly identified and defined, the following values shall prevail: 100% (full value) for the first or major procedure/operation, 75% for the second procedure/operation, 50% for the third procedure/operation, 25% for the fourth and subsequent procedures/operations. This modifier does not apply to purely diagnostic procedures.</p> <p>b) In the case of multiple fractures and/or dislocations the above values shall prevail.</p> <p>c) When purely diagnostic endoscopic procedures or diagnostic endoscopic procedures unrelated to any therapeutic procedures performed, are performed under the same general anaesthetic, Modifier 0005 is not applicable to the fees for such diagnostic endoscopic procedures as the fees for endoscopic procedures do not provide for aftercare. Specify unrelated endoscopic procedure and provide diagnosis to indicate diagnostic endoscopic procedure(s) unrelated to other (therapeutic) procedures performed under the same anaesthetic.</p> <p>d) Please note: When more than one small procedure is performed and the tariff makes provision for items for "subsequent" or "maximum for multiple additional procedures" (see Section 2. Integumentary System) Modifier 0005 is not applicable as the fee is already a reduced fee.</p> <p>e) "+" Means that this item is used in addition to another definitive procedure and is therefore not subject to reduction according to Modifier 0005 (see also Modifier 0082)</p>			
0006	Visiting specialists performing procedures: Where specialists visit smaller centres to perform procedures, fees for these particular procedures are exclusive of aftercare. The referring practitioner will then be entitled to subsequent hospital visits for aftercare. If the referring practitioner is not available, the specialist shall, on consultation with the patient, choose an appropriate locum tenens. Both the surgeon and the practitioner who handled the aftercare, must in such instances quote Modifier 0006 with the particular items which they use

0008	Specialist surgeon assistant: Where a procedure requires a registered specialist surgeon assistant, the fee is 33,33% (1/3) of the fee for the specialist surgeon			
0009	Assistant: The fee for an assistant is 20% of the fee for the specialist surgeon, with a minimum of 36,00 clinical procedure units. The minimum fee payable may not be less than 36,00 clinical procedures units			
0010	<p>Local anaesthetic:</p> <p>(a) A fee for a local anaesthetic administered by the operator may only be charged for (1) an operation or procedure having a value greater than 30,00 clinical procedure units (i.e. 31,00 or more clinical procedure units allocated to a single item) or (2) where more than one operation or procedure is done at the same time with a combined value greater than 50,00 clinical procedure units.</p> <p>(b) The fee shall be calculated according to the basic anaesthetic units for the specific operation. Anaesthetic time may not be charged for, but the minimum fee as per Modifier 0036: Anaesthetic administered by a General Practitioner , shall be applicable in such a case.</p> <p>(c) Not applicable to radiological procedures (such as angiography and myelography).</p> <p>(d) No fee may be levied for topical application of local anaesthetic.</p> <p>(e) Please note: Modifier 0010: Local anaesthetic administered by the operator, may not be added on the surgeon's account for procedures that were performed under general anaesthetic.</p>			
0011	Emergency procedures: Any bona fide, justifiable emergency procedure (all hours) undertaken in an operating theatre and/or in another setting in lieu of an operating theatre, will attract an additional 12,00 clinical procedure units per half-hour or part thereof of the operating time for all members of the surgical team. Modifier 0011 does not apply in respect of patients on scheduled lists. (A medical emergency is any condition where death or irreparable harm to the patient will result if there are undue delays in receiving appropriate medical treatment)			
0013	Endoscopic examinations done at operations: Where a related endoscopic examination is done at an operation by the operating surgeon or the attending anaesthesiologist, only 50% of the fee for the endoscopic examination may be charged

Tariff Code	Description of tariff code	CF	Units	2019 Values
0084	Film costs: In the case of radiological items where films are used, practitioners should adjust the fee upwards or downwards in accordance with changes in the price of films in comparison with November 1979; the calculation must be done on the basis that film costs comprise 10% of the monetary value of the unit (This information is obtainable from the Radiological Society of SA)			
0085	Left Side' modifier to be added to when items 6500 to 6519 are used when the left side is examined. Please note that the absence of this modifier indicates that the right side was examined			
0086	Vascular groups: "Film series" and "Introduction of Contrast Media" are complementary and together constitute a single examination: neither fee is therefore subject to increase in terms of Modifier 0080: Multiple examinations			
0090	Radiologist's fee for participation in a team: 30,00 radiology units per ½ hour or part thereof for all interventional radiological procedures, excluding any pre- or post-operative angiography, catheterisation, CT-scanning, ultrasound-scanning or x-ray procedures. (Only to be charged if radiologist is hands-on, and not for interpretation of images only)			
0091	Diagnostic services rendered to hospital inpatients: Quote Modifier 0091 on all accounts for diagnostic services (e.g. MRI, X-rays , pathology tests) performed on patients officially admitted to hospital or day clinic (refer to Rule XX)			
0092	Diagnostic services rendered to outpatients: Quote Modifier 0092 on all accounts for diagnostic services (e.g. MRI, X-rays , pathology tests) performed on patients NOT officially admitted to hospital or day clinic (could be within the confines of a hospital) (refer to Rule YY)			
0095	Radiation materials: Exclusively for use where radiation materials supplied by the practice are used by clinical and radiation oncologists, modifier 0095 should be used to identify these materials. A material code list with descriptions and guideline costs for these materials, maintained and updated on a regular basis, will be supplied by the Society of Clinical and Radiation Oncology. This modifier is only chargeable by the practice responsible for the cost of this material and where the hospital did not charge therefore. Please note that item 0201 should not be used for these materials			
0096	Radio-isotope therapy patients who fail to keep their appointments: Fee will include cost of isotope			
0097	Pathology tests performed by non-pathologists: Where items under Clinical Pathology (section 21) and Anatomical Pathology (section 22) fall within the province of other specialists or General Practitioner s, the fee is to be charged at two-thirds of the pathologists fee			
0160	Aspiration of biopsy procedure performed under direct ultrasound control by an ultrasound aspiration biopsy transducer (Static Realtime): Fee for part examined plus 30% of the units			
0165	Use of contrast during ultrasound study: add 6.00 ultrasound units	60	6,000	R80,00

MODIFIERS GOVERNING THE ADMINISTRATION OF ANAESTHETICS FOR ALL PROCEDURES AND OPERATIONS				
0020	Conscious sedation: Any case that is conducted outside of a hospital theatre shall be coded with the relevant procedure code. To identify these cases, the above modifier should be used to indicate to the medical scheme that there will be no hospital/ theatre account.			
0021	Determination of anaesthetic fees: Anaesthetic fees are determined by obtaining the sum of the basic anaesthetic units (allocated to each procedure that might be performed under anaesthetic as indicated in the "Anaesthetic Performed" column) plus the time units (calculated according to the formula in Modifier 0023) and the appropriate modifiers (see Modifiers 0037-0044). In cases of operative procedures on the musculoskeletal system, open fractures and open reduction of fractures or dislocations add units as laid down by Modifiers 5441 to 5448			
0023	The basic anaesthetic units are laid down in the tariff and are reflected in the anaesthetic column. These basic anaesthetic units reflect the additional anaesthetic risk, the technical skill required of the anaesthesiologist/anaesthetist and the scope of the surgical procedure, but exclude the value of the actual time spent administering the anaesthetic. The time units (indicated by "T") will be added to the listed basic anaesthetic units in all cases on the following basis: Anaesthetic time: The remuneration for anaesthetic time shall be per 15 minute period or part thereof, calculated from the commencement of the anaesthetic, i.e. 2,00 anaesthetic units per 15 minute period or part thereof, provided that should the duration of the anaesthetic be longer than one (1) hour the number of units shall, after one (1) hour, be 3,00 anaesthetic units per 15 minute period or part thereof.			
0024	Pre-operative assessments not followed by procedures: If a pre-operative assessment of a patient by the anaesthesiologist/ anaesthetist is not followed by an operation, it will be regarded as a visit at hospital or nursing home and the appropriate hospital visit item should be charged.			
0025	Calculation of anaesthetic time: Anaesthetic time is calculated from the time the anaesthesiologist/anaesthetist begins to prepare the patient for the induction of anaesthesia in the operating theatre or in a similar equivalent area and ends when the anaesthesiologist/anaesthetist is no longer required to give his/her personal professional attention to the patient, i.e. when the patient may, with reasonable safety, be placed under the customary post-operative supervision. Where prolonged personal professional attention is necessary for the well-being and safety of such patient, the necessary time will be valued on the same basis as indicated above for the anaesthetic time. The anaesthesiologist/anaesthetist must show on his/her account the exact anaesthetic time, including the supervision time spent with the patient.			
0027	More than one procedure under the same anaesthetic: Where more than one operation is performed under the same anaesthetic, the basic anaesthetic units will be that of the major operation with the highest number of units			
0028	Indicator for use of low flow anaesthetic technique less than 1litre/minute: Fresh gas flow of less than 1 litre/minute			
0029	Assistant anaesthesiologists: When rendered necessary by the scope of the anaesthetic, an assistant anaesthesiologist may be employed. The remuneration of the assistant anaesthesiologist shall be calculated on the same basis as in the case where a General Practitioner administers the anaesthetic

FOR REO OPTION ONLY		Disciplines: 24,26,28,30,36,42,44,46,114		
Tariff Code	Description of tariff code	CF	Units	2019 Values
0030	Indicator for use of low flow anaesthetic technique 1-2 litre/minute: Fresh gas flow of 1 to 2 litre/minute			
0031	Intravenous drips and transfusions: Treatment with intravenous drips and transfusions is considered part of the normal treatment in administering an anaesthetic. No additional fees may be charged for such services when rendered either prior to, or during actual theatre or operating time			
0032	Patients in prone position: Anaesthesia administered to patients in the prone position shall have a minimum of 4,00 basic anaesthetic units. When the basic anaesthetic units for the procedure is 3,00, one extra anaesthetic unit should be added. If the basic anaesthetic units for the procedure is 4,00 or more, no extra units should be added			
0033	Participating in general care of patients: When an anaesthesiologist/anaesthetist is required to participate in the general care of a patient during a surgical procedure, but does not administer the anaesthetic, such services may be remunerated at full anaesthetic rate, subject to the provisos of modifier 0035: Anaesthetic administered by an anaesthesiologist/anaesthetist. and modifier 0036: Anaesthetic administered by General Practitioner s.			
0034	Head and neck procedures: All anaesthetics administered for diagnostic, surgical or X-ray procedures on the head and neck shall have a minimum of 4,00 basic anaesthetic units. When the basic anaesthetic units for the procedure is 3,00, one extra anaesthetic unit should be added. If the basic anaesthetic units for the procedure is 4,00 or more, no extra units should be added			
0035	Anaesthetic administered by an anaesthesiologist/anaesthetist: No anaesthetic administered shall have a total value of less than 7,00 anaesthetic units (basic units, time units plus appropriate modifiers).			
0036	Anaesthetic administered by General Practitioner s: The units (basic units plus time plus the appropriate modifiers) used to calculate the fee for an anaesthetic administered by a General Practitioner lasting one hour or less, shall be the same as that for an anaesthesiologist. For anaesthetic lasting more than one hour, the units used to calculate the fee for an anaesthetic administered by a General Practitioner will be 4/5 (80%) of the total number of units (basic units plus time [refer to modifier 0023] plus the appropriate modifiers) applicable to an anaesthesiologist. Please note that the 4/5 (80%) principle will be applied to all anaesthetics administered by General Practitioner s with the proviso that no anaesthetic with a total number of units higher than 11.00 will be reduced to less than 11,00 units in total. The monetary value of the unit is the same for both an anaesthesiologist/anaesthetist.			
0037	Body hypothermia: Utilisation of total body hypothermia: Add 3,00 anaesthetic units			
0038	Peri-operative blood salvage: Add 4,00 anaesthetic units for intra-operative blood salvage and 4,00 anaesthetic units for post-operative blood salvage			
0039	Control of blood pressure: Deliberate control of the blood pressure: All cases up to one hour: Add 3,00 anaesthetic units, thereafter add 1,00 (one) additional anaesthetic unit per quarter hour or part thereof			
0040	Phaeochromocytoma: The basic anaesthetic units for procedures performed for phaeochromocytoma shall be 15,00 anaesthetic units

GENERAL RULE GOVERNING ULTRASONIC EXAMINATIONS DURING PREGNANCY				
EE.	<p>Ultrasound examinations: The international norm approved for use in South Africa for NORMAL PREGNANCY is two ultrasound exams:</p> <p>(a) The first scan should preferably include a nuchal thickness estimation and be performed between 10 and 14 weeks gestation. The second scan should be performed between 20 and 24 weeks and should include a full anatomical report. All subsequent ultrasound scans are excluded from the benefits of medical schemes unless accompanied by proper motivation. An ultrasound scan to assess an abnormal early pregnancy may be formed before 10 weeks but this scan may not be used to diagnose a normal uncomplicated pregnancy. Item 3618 is a gynaecological scan and its use is not approved for use in pregnancy.</p> <p>(b) In cases where the scan is performed by the attending practitioner, a clear indication for such a scan must be entered on the account rendered, or a letter of motivation must be attached to the account (the practitioner must elect one of the two options).</p> <p>(c) In case of a referral, the referring doctor must submit a letter of motivation to the radiologist or other practitioner doing the scan. A copy of the letter of motivation must be attached to the first account rendered to the patient (by the radiologist or the other practitioner doing the scan) and must be attached to the first account submitted to the medical scheme by the patient or the doctor, as the case may be.</p> <p>(d) In case of a referral to a radiologist, no motivation should be required from the radiologist</p>

MODIFIER GOVERNING INTERVENTIONAL RADIOLOGICAL PROCEDURES				
0090	Radiologist's fee for participation in a team: 30,00 radiology units per ½ hour or part thereof for all interventional radiological procedures, excluding any pre- or post-operative angiography, catheterisation, CT-scanning, ultrasound-scanning or x-ray procedures. (Only to be charged if radiologist is hands-on, and not for interpretation of images only)			
19.15	Magnetic Resonance Imaging (MRI)			
6100	In order to charge the full fee (600,00 magnetic resonance units) for an examination of a specific single anatomical region, it should be performed with the applicable radio frequency coil including T1 and T2 weighted images on at least two planes			
6101	Where a limited series of a specific anatomical region is performed (except bone tumour), e.g a T2 weighted image of a bone for an occult stress fracture, not more than two-thirds (2/3) of the fee may be charged. Also applicable to all radiotherapy planning studies, per region			
6102	All post-contrast studies (except bone tumour), including perfusion studies, to be charges at 50% of the fee			
6103	Post-contrast study: Bone tumour: 100% of the fee			
6104	Limited examination of the hypophysis e.g. where a coronal T1 and sagittal T1 series are performed, two-thirds (2/3) of the fee is applicable			
6105	Where, in a limited hypophysis examination, Gadolinium is administered and coronal T1 and sagittal T1 series are repeated, a single full fee for the entire examination is applicable + cost of Gadolinium + disposable items			
6106	Where a magnetic resonance angiography (MRA) of large vessels is performed as primary examination, 100% of the fee is applicable. This modifier is only applicable if the series is performed by use of a recognised angiographic software package with reconstruction capability			
6107	Where a magnetic resonance angiography (MRA) of the vessels is performed additional to an examination of a particular region, 50% of the fee is applicable for the angiography. This modifier is only applicable if the series is performed by use of a recognised angiographic software package with reconstruction capability

	Codes 5790 to 5795 are for exclusive use by oncology trained doctors working within chemotherapy facilities			
5790	Non Infusional Chemotherapy: Global Fee for the management of and for related services delivered in the treatment of cancer with oral chemotherapy (per cycle), intramuscular (IMI), subcutaneous, intrathecal or bolus chemotherapy or oncology specific drug administration per treatment day - for exclusive use by doctors with appropriate oncology training (consultations to be charged separately) - (not applicable to oral hormonal therapy)	20	42,950	R599,70
5791	Non Infusional Chemotherapy Facility Fee: A facility where oncology medicines are procured or scripted for oral chemotherapy, intramuscular (IMI), subcutaneous, intrathecal or bolus chemotherapy or oncology specific drug administration per treatment day. This fee is chargeable by doctors with appropriate oncology training who owns or rents the facility, and by others e.g. hospitals or clinics that provide the services as per the appropriate billing structure. Said facilities are to be accredited under the auspices of SASMO and/or SASCRO (to be used in conjunction with item 5790) - (not applicable to oral hormonal therapy) - only one of the parties are to charge this fee	20	24,490	R342,00
