3 January 2019

GEMS TARIFF FOR SERVICES BY HOMEOPATHS WITH EFFECT FROM 1 JANUARY 2019

Practice Type: **Homeopathy**

| Tariff Code | Description of Tariff Code | CF | Units | BF | Flag | 2019 values |
|----------------|---|----|-------|----|------|-------------|
| | Definition: Medicines | | | | | |
| | Prescribed medicine: Homoeopathic medicines are prescribed in accordance with the homoeopathic principles and philosophy. The philosophy may consist of a classical, a clinical or a combined classical/clinical approach. The prescription may include proprietary homoeopathic medicine, or patient specific compounded medicine or a combination of both. The prescription may also include specially imported medicine. The medicine may be prescribed in the form of a tablet, capsules, ampoules, liquid drops, liquid syrup, eardrops, nose drops, eye drops, pillules, granules, powders, ointments, creams, suppositories, stickers, etc. The medicine may be prescribed in a simplex potency, mother tincture (Æ), low potency, multi-potency, etc and/or complex form. | | | | | |
| | Proprietary medicine: These are registered medicines (consonant with the homoeopathic scope of practice) that are available in the open market or trade, or which are bought in bulk from manufacturers or wholesalers and dispensed to patients in smaller volumes without any compounding or manipulation. The dispensing of such medicine requires the appropriate NAPPI code provided by the manufacturer/distributor. | | | | | |
| | Non-proprietary homoeopathic medicine: These are homoeopathic medicines (consonant with the homoeopathic scope of practice) which are formulated and/or prepared and/or manipulated, and/or compounded in-house by the registered homoeopathic practitioner, and/or by a registered homoeopathic medicine manufacturer in accordance with the prescription and/or formula of the registered homoeopathic practitioner and which is not available in the market/trade. | | | | | |
| | Dispense/Dispensing: In terms of Act 101 of 1965 means in the case of a medical practitioner, dentist, practitioner, nurse or any prescriber authorised to dispense medicines. | | | | | |
| | i. the interpretation and evaluation of a prescription; ii. the selection, reconstitution, dilution, labelling, recording and supply of the medicine in an appropriate container; iii. the provision of information and instructions to ensure safe and effective use of a medicine by a patient. | | | | | |
| | Compound/Compounding: Means to prepare, mix, combine, package and label a medicine for dispensing as a result of a prescription for an individual patient by a pharmacist or a person authorised in terms of Act 101 of 1965. | | | | | |
| | Proprietary Materials: To be used for all material and/or unregistered/unscheduled products used in treatment. The appropriate NAPPI code(s), where applicable, must be provided. | | | | | |
| | General rules on medicines, supplies, material and use of own equipment in treatment and procedures | | | | | |

GEMS TARIFF FOR SERVICES BY HOMEOPATHS WITH EFFECT FROM 1 JANUARY 2019

Practice Type: **Homeopathy**

| Tariff Code | Description of Tariff Code | CF | Units | BF | Flag | 2019 values |
|----------------|--|----|-------|----|------|-------------|
| | MEDICINE CODE USAGE: | | | | | R0,00 |
| | Licensed practitioners | | | | | |
| | 201: As medicine dispensed to patients may only be used by a practitioner licensed to dispense medicine 202-204: As compounded medicines which are dispensed to patients may only be used by a practitioner licensed to compound and dispense medicine 221-224: May be used by a licensed practitioner in the administration or usage of a medicine or material during the consultation. Items 222-224 specifically require a compounding license 209: The use or administration of proprietary materials during a consultation | | | | | |
| | Unlicensed practitioners: | | | | | |
| | 221: Administered proprietary medicine (consonant with the homoeopathic scope of practice) to patients during the consultation as administration does not warrant a dispensing license as per Regulation 18, Act 101 of 1965, which states: Regulation 18, Act 101 (8) For the purposes of this regulation, "compounding and dispensing" does not refer to a medicine requiring preparation for a once-off administration to a patient during a consultation 209: The use or administration of proprietary materials during a consultation 400: A dispensing code allowing the dispensing of proprietary homoeopathic medicine to a patient for an emergency medical condition on a once-off basis by an unlicensed practitioner. This should only be used bearing in mind the understanding of the term "emergency medical condition" where failure to such an act would prove a danger to the patient or community or as defined by the Regulations to the Medical Schemes Act, 1998 (Act 131 of 1998): "Emergency Medical Condition" means the sudden and, at the time, unexpected onset of a health condition that requires immediate medical or surgical treatment, where failure to provide medical or surgical treatment would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part, or would place the person's life in serious jeopardy. | | | | | |
| | Reflection of NAPPI/NHRPL codes on electronic and paper claims: | | | | | |
| | NAPPI codes are only relevant for Items 201, 221 and, if applicable, 209. Due to the nature of non-proprietary medicine, no NAPPI codes exist for Items 202-204 and 222-224 and the inclusion of the NHRPL codes should be regarded as sufficient. For electronic claims each NHRPL and/or NAPPI code should be reflected on its own line followed by consecutive columns: the Single Exit Price (SEP) or NHRPL value (VAT inclusive) of the specific medicine and the total amount reflecting a VAT inclusive amount. | | | | | |

NB: Every account shall contain the following particulars. The account or statement contemplated in section 59(1) of the Act must contain the following: a. The surname and initials of the member; b. The surname, first name and other initials, if any, of the patient; c. The name of the scheme concerned; d. The membership number of the member; e. The practice code number, group practice number and individual provider registration number issued by the registering authorities for providers, if applicable, of the supplier of service and, in the case of a group practice, the name of the practitioner who provided the service; f. The relevant diagnostic and such other item code numbers that relates to such relevant health service; g. The date on which each relevant health service was rendered; h. The nature and cost of each relevant health service rendered, including the supply of medicine to the member concerned or to a dependant of that member; and the name, quantity and dosage of and net amount payable by the member in respect of, the medicine. | | | | | |
| 002 | No "shopping list" must be distributed to doctors and no group tests will be carried out | | | | | |
| 003 | No charge to be raised in respect of services such as sample handling and after hours services | | | | | |
| 004 | Interaction with patient for collecting of specimens shall be limited to those specimens that are physiologically expelled, such as sputum and urine and taking of venous and peripheral blood. | | | | | |
| 005 | It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account. | | | | | |

| Tariff Code | Description of Tariff Code | CF | Units | BF | Flag | 2019 values |
|----------------|---|----|-------|----|------|-------------|
| | In calculating the GEMS Tariff, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10 cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. | | | | | |
| | ALL GEMS TARIFFS ARE VAT INCLUSIVE. | | | | | |
| | GENERAL RULES | | | | | |
| А | It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account. | | | | | |
| С | All accounts submitted by mental health institutions shall comply with all of the requirements in terms of the Medical Schemes Act, Act No. 131 of 1999. Where possible, such accounts shall also reflect the practice code numbers and names of the surgeon, the anaesthetist and of any assistant surgeon who may have been present during the course of an operation. | | | | | |
| D | All accounts shall be accompanied by a copy of the relevant theatre accounts specifying all details of items charged, as well as all the procedures performed. Photocopies of all other documents pertaining to the patients account must be provided on request. Medical schemes shall have the right to inspect the original source documents at the rehabilitation hospital concerned. | | | | | |
| E | All accounts containing items which are subject to a discount in terms of the recommended benefit shall indicate such items individually and shall show separately the gross amount of the discount. | | | | | |
| E.3.3 | Mental Institutions refers to all institutions registered with the Department of Health in terms of the Mental Health Care Act 17 of 2002 having practice code numbers commencing with the digits 55. | | | | | |

| | In calculating the GEMS Tariff, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. ALL GEMS TARIFFS ARE VAT INCLUSIVE. | | | | | | |
| | The schedule includes procedures and services for use by Oral Health Care Providers for purposes of keeping accurate patient records, reporting procedures on patients, and processing oral healthcare related insurance claims. The procedures are those performed by general dental practitioners, oral pathologists, prosthodontists, periodontists, orthodontists, maxillofacial and oral surgeons and dental therapists. | | | | | | |
| | The procedures codes listed in the schedule have, for the convenience in using the schedule, been divided into categories of services, based on the branches of clinical dental practice. The procedures are grouped under the category of service with which the procedures are most frequently identified and should not be interpreted as excluding certain categories of Oral Health Care Providers from performing such procedures. Individual procedure codes consist of a procedure code, procedure description (nomenclature), and when necessary, a descriptor, that provides further definition and/or guidelines to clarify the intended use of the procedure code. | | | | | | |

| Tariff Code | Description of tariff codes | | | | | | |
| 006 | The schedule does not prescribe the scope of practice of a particular category of Oral Health Care Provider; neither does it confine the performing of procedures or services to a registered speciality. Fees listed within a column of a particular category of Oral Health Care Provider are customary fees, should the procedure or service be rendered by that provider category. Specialists are however encouraged to confine their practice to the speciality or related specialities in which they are registered. Specialist may charge fees for procedures or services which usually pertain to some other speciality, if such procedures or services are also recognised in their speciality, and if it is carried out only for their bona fide patients. Such fees shall not be higher than those charged by general practitioners for the same procedures or services (HPCSA, Rule 25). Fees for procedures or services not listed within the column of dental therapists that do fall within the field of dental therapy in terms of their scope of practice are regarded as being "by arrangement" until such fees are listed. | | | | | | |
| 007 | Procedures not listed in the Dental Schedule | | | | | | |
| | When a procedure is performed that is not listed in the schedule, an appropriate procedure code, listed in the NHRPL for medical practitioners may be reported. | | | | | | |
| | Unlisted procedures. Any procedure that is neither described in the schedule, nor in the medical schedule, should be reported using code 9099 - Unlisted dental procedure or service. The fee for an unlisted dental procedure or service should be based on the fee of a comparable procedure. Code 9099 codes should not be used to report procedures where the fee is determined "by arrangement" with the patient and/or medical scheme. | | | | | | |

Multiple Procedures (Maxillo-facial and oral surgery): The fee/benefit for more than one operation or procedure performed through the same incision shall be determined as the fee for the major operation plus fee/benefit for the subsidiary operation to the indicated maximum for each such subsidiary operation or procedure (Modifier 8005). The fee/benefit for more than one operation or procedure performed under the same anaesthetic but through another incision shall be determined on the fee/benefit for the major operation plus: 75% for the second procedure/operation (Modifier 8009). 50% for the third and subsequent procedures/operations (Modifier 8006). This rule shall not apply where two or more unrelated operations are performed by practitioners in different specialities, in which case each practitioner shall be entitled to the full fee/benefit of the operation. If, within four months, a second operation for the same condition or injury is performed, the fee/benefit for the second operation shall be 50% of that of the first operation (Modifier 8006). | | | | | | |
| | 3. Assistant Surgeon (Maxillo-facial and periodontal surgery): The fee payable to a specialist assistant is determined as 1/3 (of the fee of the practitioner performing the procedure (Modifier 8001). The fee payable to a general dental practitioner assistant is determined as 15% (of the fee of the practitioner performing the procedure (Modifier 8007). The patient must be informed beforehand that another dentist/ specialist will be assisting at the operation and that a fee will be payable to the assistant. The assistant's name must appear on the invoice rendered to the patient. | | | | | | |

| | Age of a Child. | | | | | | |
| | The determination of a child or adult status of the patient should be based on the clinical development of the patient's dentition. Where administrative constraints preclude the use of clinical development so that the chronological age must be used to determine the child or adult status, the patient is defined as an adult beginning at age 12 with the exclusion of treatment for orthodontics or sealants. | | | | | | |
| | Frequency of benefits. | | | | | | |
| | The South African Dental Association recommends to medical schemes, where considered necessary and appropriate, that contract limitations on the frequency of providing care for certain services be stated as "twice a calendar year" rather than once in every six months. | | | | | | |
| | Radiographs and records. | | | | | | |
| | Radiographs should be taken only for clinical reasons as determined by the treating dentist. Postoperative radiographs should only be required as part of dental treatment. When a dentist determined it is appropriate to comply with a third-party payer's request for radiographs, a duplicate set should be submitted and the originals retained by the dentist. Any additional costs incurred by the dentists in copying radiographs and clinical records for claims determination should be reimbursed by the third-party payer or the patient. | | | | | | |

| | New vs. established patient. A new patient is one who has not received any professional services from the dentist or another dentist of the same speciality who belongs to the same group practice, within the past three years. An established patient (patient of record) is one who has received professional services from the dentist or another dentist of the same speciality who belongs to the same group practice, within the past three years. In the instance where a dentist is on call for or covering | | | | | | |
| | for another dentist, the patient's encounter will be classified as it would have been by the dentist who is not available. | | | | | | |

| | The purpose of oral examinations is to observe and record pertinent information, past and present, necessary to arrive at a diagnosis and treatment plan (when treatment is indicated). A treatment plan is a list of procedures or services the dentist proposes to perform on a dental patient based on the results of the examination and diagnosis. Often more than one treatment plan is presented. | | | | | | |
| | Oral examinations may require the integration of information that is acquired through additional diagnostic procedures, which should be reported separately. The oral examination, diagnosis, and treatment planning are the responsibility of the dentist. The collection and recording of some data and components of the oral examination may however be delegated. Oral examinations and consultations include the issuing of prescriptions where medication is required. | | | | | | |

| | Diagnostic radiographs/diagnostic images include interpretation. Radiographs/diagnostic images should only be taken | | | | | | |
| | for clinical reasons as determined by the dentist and practitioners should comply with the Regulations concerning safe radiological practice and take the necessary precaution to minimise radiation of patients. Radiographs/diagnostic images are part of the patient's clinical record, should be of diagnostic quality, properly identified and dated. The dentist should retain the original images and only copies should be used to fulfil requests made by patients or third party funders. | | | | | | |
| | A complete series of intra-oral radiographs/images for diagnostic purposes is required once per treatment plan only. A second series may be required in exceptional cases e.g., following periodontal surgery. The same applies to panoramic films, where additional films may be required for follow-up/re-evaluation purposes. | | | | | | |

| Tariff Description of tariff codes Code | | | | | | |
| The branch of dentistry that deals with the reconstruction of the hard tissues of a tooth or group of teeth, injured or destroyed by trauma or disease. Restorative services/procedures intend to restore the function of a natural tooth. Anterior teeth include incisors and canines. Posterior teeth include premolars and molars. The number of tooth surfaces restored, i.e. mesial, occlusal (or incisal), distal, lingual, or vestibular (buccal or labial), is used to determine the appropriate procedure code. A one surface restoration for example, involves only one of the surfaces, while a two-surface restoration extends to two of the five surfaces. With a four-or-more-surfaces anterior restoration involving four tooth surfaces and the incisal angle is involved. Limitations on amalgam and resin-based composite restorations: (1) The reporting of two separate restorations of the same material (e.g., a MO and DO amalgam restoration) on the same tooth is appropriate. Some medical schemes however, have a clause in its dental plan(s) that restricts coverage of the same tooth surface, such as an occlusal, twice on the same day and may require the reporting of a MOD restoration instead of a separate MO and DO restoration. (2) The current NHRPL rates include direct pulp capping (code 8301) and rubber dam application (code 8304). | | | | | | |

| I. | Fixed Prosthodontics | | | | | | |
| | The branch of prosthodontics concerned with the replacement or restoration of teeth by artificial substitutes that are not readily removable. A prosthetic retainer (e.g., crown/inlay/onlay retainer) in this section is defined as a part of a bridge that attaches a pontic to the abutment tooth. A pontic is that part of a bridge which replaces a missing tooth or teeth. Each retainer and each pontic constitutes a unit in a bridge. Porcelain/ceramic retainers and pontics presently include all ceramic, porcelain and porcelain fused to metal retainers and pontics. Resin retainers and pontics and resin metal retainers and pontics include all reinforced heat and/or pressure-cured resin materials. Metal components include structures manufactured by means of conventional casting and/or electroforming. | | | | | | |
| | Pontics | | | | | | |
| | Comment: Codes 8415, 8416, 8417and 8418 include ovate pontic designs. The nomenclatures of the pontics have been revised to coincide with the nomenclature used for crowns, which improves accurate record keeping. A similar approach has been followed for crowns and inlays/onlays utilised as bridge retainers. | | | | | | |

| Tariff Code | Description of tariff codes | | | | | | |
| | A removable functional appliance is an appliance with no fixed dental component which is designed to harness the forces generated by the muscles of mastication and the associated soft tissues of the oro-facial region. This appliance incorporates components which act on both the maxillary and mandibular arches and should be differentiated from a simple removable appliance including appliances incorporating an anterior and posterior bite plane. Orthodontic treatment by means of a functional appliance is usually followed by comprehensive orthodontic treatment utilising fixed orthodontic treatment is provided by the same practitioner, the fees levied for treatment by means of the functional appliance, will be deducted from the fee quoted for comprehensive orthodontic treatment. | | | | | | |

| | In calculating the GEMS Tariff, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. ALL GEMS TARIFFS ARE VAT INCLUSIVE. | | | | | | | | | | | | | | |
| | RULES GOVERNING THE STRUCTURE | | | | | | | | | | | | | | |
| A. | Consultations: Definitions: (a) New and established patients: A consultation/visit refers to a clinical situation where a medical practitioner personally obtains a patient's medical history, performs an appropriate clinical examination and, if indicated, administers treatment, prescribes or assists with advice. These services must be face-to-face with the patient and excludes the time spent doing special investigations which receive additional remuneration. (b) Subsequent visits: Refers to a voluntarily scheduled visit performed within four (4) months after the first visit. It may imply taking down a medical history and/or a clinical examination and/or prescribing or administering of treatment and/or counselling. (c) Hospital visits: Where a procedure or operation was done, hospital visits are regarded as part of the normal aftercare and no fees may be levied (unless otherwise indicated). Where no procedure or operation was carried out, fees may be charged for hospital visits according to the appropriate hospital or inpatient follow-up visit code. | | | | | | | | | | | | | | |
| B. | Normal hours and after hours: After-hours services are paid at the same rate as benefits for normal hours services. Bona fide emergency medical services rendered to a patient, at any time, may attract a fee as specified in modifier 0011 and items 0146 or 0147 (which should be added to the appropriate consultative services code selected from items 0190-0192, 0173-0175, 0161-0164, 0166-0169) | | | | | | | | | | | | | | |

| C. | Comparable services: A service may be rendered that is not listed in this edition of the coding structure. The fee that may be charged in respect of the rendering of a service not listed in this coding structure shall be based on the fee in respect of a comparable service. For these procedure(s)/service(s), item 6999: Unlisted procedure or service code, should be used. Please contact the SA Medical Association (SAMA) Private Practice Unit via e-mail on coding@samedical.org to obtain a comparable code for the unlisted procedure/service which will be based on the fee for a comparable service in the coding structure. When item 6999 is used to indicate that an unlisted service was rendered, the use of the item must be supported by a special report. This report must include: (1) An adequate definition or description of the nature, extent and need for the procedure/service or "medical necessity"; (2) In which respect is this service unusual or different in technique, compared to available procedures/services listed in the coding structure? Information regarding the nature and extent of the procedure/service, time and effort, special/dedicated equipment needed to provide this service, must be included in the report; (3) Is this procedure/service medically appropriate under the circumstances? Explain why another procedure/service listed in the coding structure will not be appropriate in this case; (4) A description of the complexity of the symptoms and concurrent problems must be supplied; (5) Final diagnosis supported by the appropriate ICD-10 code(s); (6) Pertinent physical findings (size, location and number of lesions if applicable); (7) Mention any other diagnostic or therapeutic procedure(s)/service(s) provided at the same session; (8) Any further diagnostic or therapeutic procedure(s)/service(s) to be provided in the follow-up period; and (9) Description of the follow-up care needed. Please note: This comparable service code may not be used for a period longer than six months for a particular procedure/s | | | | | | | | | | | | | |

| D. | Cancellation of appointments: Unless timely steps are taken to cancel an appointment for a consultation, the relevant consultation fee may be charged. In the case of a General Practitioner "timely" shall mean two hours and in the case of a specialist 24-hours prior to the appointment. Each case shall, however, be considered on merit and, if circumstances warrant, no fee shall be charged. If a patient has not turned up for a procedure, each member of the surgical team is entitled to charge for a visit at or away from doctor's rooms as the case may be | | | | | | | | | | | | | |
| E. | Pre-operative visits: The appropriate fee may be charged for all pre-operative visits with the exception of a routine pre-operative visit at the hospital | | | | | | | | | | | | | |
| F. | Administering of injections and/or infusions: Where applicable, fees for administering injections and/or infusions may only be charged when done by the practitioner himself | | | | | | | | | | | | | |
| G. | Post-operative care: (a) Unless otherwise stated, the fee in respect of an operation or procedure shall include normal aftercare for a period not exceeding ONE month (aftercare is excluded from pure diagnostic procedures during which no therapeutic procedures were performed). (b) If the normal aftercare is delegated to any other registered health professional and not completed by the surgeon, it shall be his/her own responsibility to arrange for this to be done without extra charge. (c) When post-operative care/treatment of a prolonged or specialised nature is required, such fee as may be agreed upon between the surgeon and the scheme or the patient (in case of a private account) may be charged. (d) Normal aftercare refers to an uncomplicated post-operative period not requiring any further incisions | | | | | | | | | | | | | |
| H. | Removal of lesions: Items involving removal of lesions include follow-up treatment for 10 days | | | | | | | | | | | | | |
| J. | Disproportionately low fees: In exceptional cases where the fee is disproportionately low in relation to the actual services rendered by a medical practitioner, a higher fee may be negotiated. The use of this rule is not intended merely to increase the Medical Schemes Benefits. | | | | | | | | | | | | | |

| K. | Practice of specialists: In terms of the conditions in respect of the practice of specialists as published in Government Gazette No. 12958 of 11 January 1991, a specialist may treat any person who comes to him direct for consultation. A specialist who is consulted by a patient or who treats a patient, shall take all reasonable steps to ensure the collaboration of the patient's General Practitioner. Medical practitioners referring cases to other medical practitioners shall indicate in the reference whether the patient is a member of a medical scheme or a dependant of such member. This also applies in respect of specimens sent to pathologists | | | | | | | | | | | | |
| L. | Procedures performed at time of visits: If a procedure is performed at the time of a consultation/visit, the fee for the visit PLUS the fee for the procedure is charged | | | | | | | | | | | | |
| M. | Procedure planned to be performed later: In cases where, during a consultation/visit, a procedure is planned to be performed at a later occasion, a visit may not be charged for again, at such a later occasion | | | | | | | | | | | | |
| N. | "Per consultation": No additional fee may be charged for a service for which the fee is indicated as "per consultation". Such services are regarded as part of the consultation/visit performed at the time the condition is brought to the doctor's attention | | | | | | | | | | | | |
| 0. | Costly or prolonged medical services or procedures: In the case of costly or prolonged medical services or procedures, the medical practitioner shall first ascertain from the medical scheme for what amount the medical scheme will accept responsibility in respect of such treatment, should the practitioner wish any direct payment from the scheme | | | | | | | | | | | | |

| P. | Travelling fees: (a) Where, in cases of emergency, a practitioner was called out from his residence or rooms to a patient's home or the hospital, travelling fees can be charged according to the section on travelling expenses (section IV) if he had to travel more than 16 kilometres in total. (b) If more than one patient would be attended to during the course of a trip, the full travelling expenses must be divided between the relevant patients. (c) A practitioner is not entitled to charge for any travelling expenses or travelling time to his rooms. (d) Where a practitioner's residence would be more than 8 kilometres away from a hospital, no travelling fees may be charged for services rendered at such hospitals, except in cases of emergency (services not voluntarily scheduled). (e) Where a practitioner conducts an itinerant practice, he is not entitled to charge fees for travelling expenses except in cases of emergency (services not voluntarily scheduled). (f) For voluntarily scheduled services, fees for travelling expenses may only be charged where the patient and the practitioner have entered into an agreement to this effect. Medical scheme benefits will not be applicable in such instances. | | | | | | | | | | | | | |

| EE. | Ultrasound examinations: The international norm approved for use in South Africa for NORMAL PREGNANCY is two ultrasound exams: (a) The first scan should preferably include a nuchal thickness estimation and be performed between 10 and 14 weeks gestation. The second scan should be performed between 20 and 24 weeks and should include a full anatomical report. All subsequent ultrasound scans are excluded from the benefits of medical schemes unless accompanied by proper motivation. An ultrasound scan to assess an abnormal early pregnancy may be formed before 10 weeks but this scan may not be used to diagnose a normal uncomplicated pregnancy. Item 3618 is a gynaecological scan and its use is not approved for use in pregnancy. (b) In cases where the scan is performed by the attending practitioner, a clear indication for such a scan must be entered on the account rendered, or a letter of motivation must be attached to the account (the practitioner must elect one of the two options). (c) In case of a referral, the referring doctor must submit a letter of motivation to the radiologist or other practitioner doing the scan. A copy of the letter of motivation must be attached to the first account rendered to the patient (by the radiologist or the other practitioner doing the scan) and must be attached to the first account submitted to the medical scheme by the patient or the doctor, as the case may be. (d) In case of a referral to a radiologist, no motivation should be required from the radiologist | | | | | | | | | | | | |
| FF. | (a) When a cystoscopy precedes a related operation, Modifier 0013: Endoscopic examination done at an operation, applies, e.g. cystoscopy followed by transurethral (TUR) prostatectomy. (b) When a cystoscopy precedes an unrelated operation, Modifier 0005: Multiple procedures/operations under the same anaesthetic, applies, e.g. cystoscopy for urinary tract infection followed by inguinal hernia repair. | | | | | | | | | | | | |
| | (c) No modifier applies to item 1949: Cystoscopy, when performed together with any of items 1951 to 1973. | | | | | | | | | | | | |

| 0020 | Conscious sedation: Any case that is conducted outside of a hospital theatre shall be coded with the relevant procedure code. To identify these cases, the above modifier should be used to indicate to the medical scheme that there will be no hospital/theatre account. | | | | | | | | | | | | |
| 0021 | Determination of anaesthetic fees: Anaesthetic fees are determined by obtaining the sum of the basic anaesthetic units (allocated to each procedure that might be performed under anaesthetic as indicated in the "Anaesthetic Performed" column) plus the time units (calculated according to the formula in Modifier 0023) and the appropriate modifers (see Modifiers 0037-0044). In cases of operative procedures on the musculoskeletal system, open fractures and open reduction of fractures or dislocations add units as laid down by Modifiers 5441 to 5448 | | | | | | | | | | | | |

| 0023 | The basic anaesthetic units are laid down in the tariff and are reflected in the anaesthetic column. These basic anaesthetic units reflect the additional anaesthetic risk, the technical skill required of the anaesthesiologist/anaesthetist and the scope of the surgical procedure, but exclude the value of the actual time spent administering the anaesthetic. The time units (indicated by "T") will be added to the listed basic anaesthetic units in all cases on the following basis: Anaesthetic time: The remuneration for anaesthetic time shall be per 15 minute period or part thereof, calculated from the commencement of the anaesthetic, i.e. 2,00 anaesthetic units per 15 minute period or part thereof, provided that should the duration of the anaesthetic be longer than one (1) hour the number of units shall, after one (1) hour, be 3,00 anaesthetic units per 15 minute period or part thereof. | | | | | | | | | | | | |
| 0024 | Pre-operative assessments not followed by procedures: If a pre- operative assessment of a patient by the anaesthesiologist/anaesthetist is not followed by an operation, it will be regarded as a visit at hospital or nursing home and the appropriate hospital visit item should be charged. | | | | | | | | | | | | |
| 0025 | Calculation of anaesthetic time: Anaesthetic time is calculated from the time the anaesthesiologist/anaesthetist begins to prepare the patient for the induction of anaesthesia in the operating theatre or in a similar equivalent area and ends when the anaesthesiologist/anaesthetist is no longer required to give his/her personal professional attention to the patient, i.e. when the patient may, with reasonable safety, be placed under the customary post-operative supervision. Where prolonged personal professional attention is necessary for the well-being and safety of such patient, the necessary time will be valued on the same basis as indicated above for the anaesthetic time. The anaesthesiologist/anaesthetist must show on his/her account the exact anaesthetic time, including the supervision time spent with the patient. | | | | | | | | | | | | |

| | Please note: The calculated amounts in this section (except for sections 19.9 and 19.11) are calculated according to the radiology unit values | | | | | | | | | | | | |
| | RULES GOVERNING THE SECTION RADIOLOGY | | | | | | | | | | | | |
| Y. | Except where otherwise indicated, radiologists are entitled to charge for contrast material used | | | | | | | | | | | | |
| Z. | No fee is subject to more than one reduction | | | | | | | | | | | | |
| GG. | Capturing and recording of examinations: Images from all radiological, ultrasound and magnetic resonance imaging procedures must be captured during every examination and a permanent record generated by means of film, paper, or magnetic media. A report of the examination, including the findings and diagnostic comment, must be written and stored for five years | | | | | | | | | | | | |
| RR. | The radiology section in this price list is not for use by registered specialist radiology practices (Pr No "038") or nuclear medicine practices (Pr No "025"), but only for use by other specialist practices or General Practitioners. A separate radiology schedule is for the exclusive use of registered specialist radiology practices (Pr No "038") and nuclear medicine practices (Pr No "025"). | | | | | | | | | | | | |
| | MODIFIERS GOVERNING THE SECTION | | | | | | | | | | | | |
| 0002 | Written report on X-rays: The lowest level code for a new patient office (consulting rooms) visit, is applicable only where a radiologist is requested to give a written report on X-rays taken elsewhere and submitted to him. The above mentioned item and the lowest level initial hospital visit code, as appropriate are not to be used for routine reporting of X-rays taken elsewhere | | | | | | | | | | | R0,00 | |

| | The following rules are applicable to Section 19.8 (Vascular studies) and Section 19.14 (Interventional Radiological Procedures): | | | | | | | | | | | | |
| | a. The machine fee (items 3536 to 3550 includes the cost of the following: All runs (runs may not be billed for separately). All film costs (modifier 0084 is not applicable). All film costs (modifier 0084 is not applicable). All fluoroscopy (item 3601 does not apply). All fluoroscopy (item 3601 does not apply). All minor consumables (defined as any item other than catheters, guidewires, introducer sets, specialised catheters, balloon catheters, stents, embolic agents, drugs and contrast media). b. The machine fee (items 3536 to 3550) may only be billed for as a once off fee per case per day by the owner of the equipment and is only applicable to radiology practices. c. If a procedure is performed by a non-radiologist together with a radiologist as a team, in a facility owned by the radiologist, each member of the team will fee at their respective full rates as per modifiers and the applicable items. d. If a procedure is performed by a non-radiologists and a radiologist as a team, in a facility not owned by the radiologist, modifiers 6301 and 6302 applies. | | | | | | | | | | | | |
| | Please note: Modifier 0083 is not applicable to section 19.8 (Vascular Studies) and section 19.14 (Interventional Radiological Procedures) | | | | | | | | | | | | |
| | MODIFIER GOVERNING VASCULAR STUDIES | | | | | | | | | | | | |
| 0086 | Vascular groups: "Film series" and "Introduction of Contrast Media" are complementary and together constitute a single examination: neither fee is therefore subject to increase in terms of Modifier 0080: Multiple examinations | | | | | | | | | | | | |
| 6300 | If a procedure lasts less than 30 minutes, only 50% of the machine fees for items 3536-3550 will be allowed (specify time of procedure on account) | | | | | | | | | | | | |
| 6301 | If a procedure is performed by a radiologist in a facility not owned by himself, the fee will be reduced by 40% (i.e. 60% of the fee will be charged) | | | | | | | | | | | | |

| 5104 | Ultrasound in pregnancy, multiple gestation, after twenty weeks: plus 30% | | | | | | | | | | | | |
| | GENERAL RULE GOVERNING ULTRASONIC EXAMINATIONS DURING PREGNANCY | | | | | | | | | | | | |
| EE. | Ultrasound examinations: The international norm approved for use in South Africa for NORMAL PREGNANCY is two ultrasound exams: (a) The first scan should preferably include a nuchal thickness estimation and be performed between 10 and 14 weeks gestation. The second scan should be performed between 20 and 24 weeks and should include a full anatomical report. All subsequent | | | | | | | | | | | | |
| | ultrasound scans are excluded from the benefits of medical schemes unless accompanied by proper motivation. An ultrasound scan to assess an abnormal early pregnancy may be formed before 10 weeks but this scan may not be used to diagnose a normal uncomplicated pregnancy. Item 3618 is a gynaecological scan and its use is not approved for use in pregnancy. (b) In cases where the scan is performed by the attending practitioner, a clear indication for such a scan must be entered on the account rendered, or a letter of motivation must be attached to the account (the practitioner must elect one of the two options). (c) In case of a referral, the referring doctor must submit a letter of motivation to the radiologist or other practitioner doing the scan. A | | | | | | | | | | | | |
| | copy of the letter of motivation must be attached to the first account rendered to the patient (by the radiologist or the other practitioner doing the scan) and must be attached to the first account submitted to the medical scheme by the patient or the doctor, as the case may be. (d) In case of a referral to a radiologist, no motivation should be required from the radiologist | | | | | | | | | | | | |

| IV. | TRAVELLING EXPENSES | | | | | | | | | | | | |
| P. | Travelling fees: (a) Where, in cases of emergency, a practitioner was called out from his residence or rooms to a patient's home or the hospital, travelling fees can be charged according to the section on travelling expenses (section IV) if he had to travel more than 16 kilometres in total. (b) If more than one patient would be attended to during the course of a trip, the full travelling expenses must be divided between the relevant patients. (c) A practitioner is not entitled to charge for any travelling expenses or travelling time to his rooms. (d) Where a practitioner's residence would be more than 8 kilometres away from a hospital, no travelling fees may be charged for services rendered at such hospitals, except in cases of emergency (services not voluntarily scheduled). (e) Where a practitioner conducts an itinerant practice, he is not entitled to charge fees for travelling expenses except in cases of emergency (services not voluntarily scheduled). (f) For voluntarily scheduled services, fees for travelling expenses may only be charged where the patient and the practitioner have entered into an agreement to this effect. Medical scheme benefits will not be applicable in such instances. | | | | | | | | | | | | |
| 5003 | The indicated amount for each kilometre in excess of 16 kilometres travelled in own car e.g. where a practitioner has to travel 19 kilometres in total to visit a patient, the fees shall be calculated as follows: 19-16=3 X Indicated amount | R20,00 | R1,00 | R13,60 | | R20,00 | R1,00 | R13,60 | | R20,00 | R1,00 | R13,20 | |

| | RULES GOVERNING THE STRUCTURE | | | | | | | | | |
| A. | Consultations: Definitions: | | | | | | | | | |
| | (a) New and established patients: A consultation/visit refers to a clinical situation where a medical practitioner personally obtains a patient's medical history, performs an appropriate clinical examination and, if indicated, administers treatment, prescribes or assists with advice. These services must be face-to-face with the patient and excludes the time spent doing special investigations which receive additional remuneration. (b) Subsequent visits: Refers to a voluntarily scheduled visit performed within four (4) months after the first visit. It may imply taking down a medical history and/or a clinical examination and/or prescribing or administering of treatment and/or counselling. (c) Hospital visits: Where a procedure or operation was done, hospital visits are regarded as part of the normal aftercare and no fees may be levied (unless otherwise indicated). Where no procedure or operation was carried out, fees may be charged for hospital visits according to the appropriate hospital or inpatient follow-up visit code. | | | | | | | | | |
| B. | Normal hours and after hours: After-hours services are paid at the same rate as benefits for normal hours services. Bona fide emergency medical services rendered to a patient, at any time, may attract a fee as specified in modifier 0011 and items 0146 or 0147 (which should be added to the appropriate consultative services code selected from items 0190-0192, 0173-0175, 0161-0164, 0166-0169) | | | | | | | | | |

| C. | Comparable services: A service may be rendered that is not listed in this edition of the coding structure. The fee that may be charged in respect of the rendering of a service not listed in this coding structure shall be based on the fee in respect of a comparable service. For these procedure(s)/service(s), item 6999: Unlisted procedure or service code, should be used. Please contact the SA Medical Association (SAMA) Private Practice Unit via e-mail on coding@ samedical.org to obtain a comparable code for the unlisted procedure/service which will be based on the fee for a comparable service in the coding structure. When item 6999 is used to indicate that an unlisted service was rendered, the use of the item must be supported by a special report. This report must include: (1) An adequate definition or description of the nature, extent and need for the procedure/service or "medical necessity"; (2) In which respect is this service unusual or different in technique, compared to available procedures/services listed in the coding structure? Information regarding the nature and extent of the procedure/service, time and effort, special/dedicated equipment needed to provide this service, must be included in the report; (3) Is this procedure/service medically appropriate under the circumstances? Explain why another procedure/service listed in the coding structure will not be appropriate in this case; (4) A description of the complexity of the symptoms and concurrent problems must be supplied; (5) Final diagnosis supported by the appropriate ICD-10 code(s); (6) Pertinent physical findings (size, location and number of lesions if applicable); (7) Mention any other diagnostic or therapeutic procedure(s)/service(s) provided in the follow-up period; and (9) Description of the follow-up care needed. Please note: This comparable service code may not be used for a period longer than six months for a particular procedure/service after which time an application has to be made for the addition of a specific code for this pr | | | | | | | | |
| D. | Cancellation of appointments: Unless timely steps are taken to cancel an appointment for a consultation, the relevant consultation fee may be charged. In the case of a General Practitioner "timely" shall mean two hours and in the case of a specialist 24-hours prior to the appointment. Each case shall, however, be considered on merit and, if circumstances warrant, no fee shall be charged. If a patient has not turned up for a procedure, each member of the surgical team is entitled to charge for a visit at or away from doctor's rooms as the case may be | | | | | | | | |
| E. | Pre-operative visits: The appropriate fee may be charged for all pre-operative visits with the exception of a routine pre-operative visit at the hospital | | | | | | | | |

| F. | Administering of injections and/or infusions: Where applicable, fees for administering injections and/or infusions may only be charged when done by the practitioner himself | | | | | | | | |
| G. | Post-operative care: (a) Unless otherwise stated, the fee in respect of an operation or procedure shall include normal aftercare for a period not exceeding ONE month (aftercare is excluded from pure diagnostic procedures during which no therapeutic procedures were performed). (b) If the normal aftercare is delegated to any other registered health professional and not completed by the surgeon, it shall be his/her own responsibility to arrange for this to be done without extra charge. (c) When post-operative care/treatment of a prolonged or specialised nature is required, such fee as may be agreed upon between the surgeon and the scheme or the patient (in case of a private account) may be charged. (d) Normal aftercare refers to an uncomplicated post-operative period not requiring any further incisions | | | | | | | | |
| H. | Removal of lesions: Items involving removal of lesions include follow-up treatment for 10 days | | | | | | | | |
| J. | Disproportionately low fees: In exceptional cases where the fee is disproportionately low in relation to the actual services rendered by a medical practitioner, a higher fee may be negotiated. The use of this rule is not intended merely to increase the Medical Schemes Benefits. | | | | | | | | |
| K. | Practice of specialists: In terms of the conditions in respect of the practice of specialists as published in Government Gazette No. 12958 of 11 January 1991, a specialist may treat any person who comes to him direct for consultation. A specialist who is consulted by a patient or who treats a patient, shall take all reasonable steps to ensure the collaboration of the patient's General Practitioner. Medical practitioners referring cases to other medical practitioners shall indicate in the reference whether the patient is a member of a medical scheme or a dependant of such member. This also applies in respect of specimens sent to pathologists | | | | | | | | |
| L. | Procedures performed at time of visits: If a procedure is performed at the time of a consultation/visit, the fee for the visit PLUS the fee for the procedure is charged | | | | | | | | |
| M. | Procedure planned to be performed later: In cases where, during a consultation/visit, a procedure is planned to be performed at a later occasion, a visit may not be charged for again, at such a later occasion | | | | | | | | |

| N. | "Per consultation": No additional fee may be charged for a service for which the fee is indicated as "per consultation". Such services are regarded as part of the consultation/visit performed at the time the condition is brought to the doctor's attention | | | | | | | | |
| O. | Costly or prolonged medical services or procedures: In the case of costly or prolonged medical services or procedures, the medical practitioner shall first ascertain from the medical scheme for what amount the medical scheme will accept responsibility in respect of such treatment, should the practitioner wish any direct payment from the scheme | | | | | | | | |
| P. | (a) Where, in cases of emergency, a practitioner was called out from his residence or rooms to a patient's home or the hospital, travelling fees can be charged according to the section on travelling expenses (section IV) if he had to travel more than 16 kilometres in total. (b) If more than one patient would be attended to during the course of a trip, the full travelling expenses must be divided between the relevant patients. (c) A practitioner is not entitled to charge for any travelling expenses or travelling time to his rooms. (d) Where a practitioner's residence would be more than 8 kilometres away from a hospital, no travelling fees may be charged for services rendered at such hospitals, except in cases of emergency (services not voluntarily scheduled). (e) Where a practitioner conducts an itinerant practice, he is not entitled to charge fees for travelling expenses except in cases of emergency (services not voluntarily scheduled). (f) For voluntarily scheduled services, fees for travelling expenses may only be charged where the patient and the practitioner have entered into an agreement to this effect. Medical scheme benefits will not be applicable in such instances. | | | | | | | | |

| | (a) When two separate acupuncture techniques are used, each treatment shall be regarded as a separate treatment for which fees may be charged for separately. (b) Not more than two separate techniques may be charged for at each session. (c) The maximum number of acupuncture treatments per course to be charged for is limited to 20. If further treatment is required at the end of this period of treatment, it should be negotiated with the patient. (d) Item 0380 refers to scalp acupuncture as a treatment in its own right and not to the use of acupuncture points on the scalp | | | | | | | | |
| EE. | Ultrasound examinations: | | | | | | | | |
| | The international norm approved for use in South Africa for NORMAL PREGNANCY is two ultrasound exams: (a) The first scan should preferably include a nuchal thickness estimation and be performed between 10 and 14 weeks gestation. The second scan should be performed between 20 and 24 weeks and should include a full anatomical report. All subsequent ultrasound scans are excluded from the benefits of medical schemes unless accompanied by proper motivation. An ultrasound scan to assess an abnormal early pregnancy may be formed before 10 weeks but this scan may not be used to diagnose a normal uncomplicated pregnancy. Item 3618 is a gynaecological scan and its use is not approved for use in pregnancy. (b) In cases where the scan is performed by the attending practitioner, a clear indication for such a scan must be entered on the account rendered, or a letter of motivation must be attached to the account (the practitioner must elect one of the two options). (c) In case of a referral, the referring doctor must submit a letter of motivation to the radiologist or other practitioner doing the scan. A copy of the letter of motivation must be attached to the first account rendered to the patient (by the radiologist or the other practitioner doing the scan) and must be attached to the first account submitted to the medical scheme by the patient or the doctor, as the case may be. (d) In case of a referral to a radiologist, no motivation should be required from the radiologist | | | | | | | | |

(b) When a cystoscopy precedes an unrelated operation, Modifier 0005: Multiple procedures/ operations under the same anaesthetic, applies, e.g. cystoscopy for urinary tract infection followed by inguinal hernia repair. (c) No modifier applies to item 1949: Cystoscopy, when performed together with any of items 1951 to 1973. | | | | | | | | |
| GG. | Capturing and recording of examinations: Images from all radiological, ultrasound and magnetic resonance imaging procedures must be captured during every examination and a permanent record generated by means of film, paper, or magnetic media. A report of the examination, including the findings and diagnostic comment, must be written and stored for five years | | | | | | | | |
| RR. | The radiology section in this price list is not for use by registered specialist radiology practices (Pr No "038") or nuclear medicine practices (Pr No "025"), but only for use by other specialist practices or General Practitioner s. A separate radiology schedule is for the exclusive use of registered specialist radiology practices (Pr No "038") and nuclear medicine practices (Pr No "025"). | | | | | | | | |

| 0004 | Procedures performed in own procedure rooms: Procedures performed in doctors' own procedure rooms instead of in a hospital theatre or unattached theatre unit: as per fee for procedure + 100% (the value of modifier 0004 equals 100% of the value of the procedure performed). See Section V (Section G in SAMA's DBT) for a list of procedures, which are often done in rooms to which Modifier 0004 should not be applied. Please note: Only the medical practitioner who owns the facility and the equipment may charge modifier 0004. Only one person may claim this modifier for procedures performed in doctors' own procedure rooms | | | | | | | | |
| 0005 | Multiple therapeutic procedures/operations under the same anaesthetic: a) Unless otherwise identified in the tariff when multiple therapeutic procedures/operations add significant time and/or complexity, and when each procedure/operation is clearly identified and defined, the following values shall prevail: 100% (full value) for the first or major procedure/operation, 75% for the second procedure/operation, 50% for the third procedure/operation, 25% for the fourth and subsequent procedures/operations. This modifier does not apply to purely diagnostic procedures. b) In the case of multiple fractures and/or dislocations the above values shall prevail. c) When purely diagnostic endoscopic procedures or diagnostic endoscopic procedures unrelated to any therapeutic procedures performed, are performed under the same general anaesthetic, Modifier 0005 is not applicable to the fees for such diagnostic endoscopic procedures as the fees for endoscopic procedures do not provide for aftercare. Specify unrelated endoscopic procedure and provide diagnosis to indicate diagnostic endoscopic procedure(s) unrelated to other (therapeutic) procedures performed under the same anaesthetic. d) Please note: When more than one small procedure is performed and the tariff makes provision for items for "subsequent" or "maximum for multiple additional procedures" (see Section 2. Integumentary System) Modifier 0005 is not applicable as the fee is already a reduced fee. e) "+" Means that this item is used in addition to another definitive procedure and is therefore not subject to reduction according to Modifier 0005 (see also Modifier 0082) | | | | | | | | |
| 0006 | Visiting specialists performing procedures: Where specialists visit smaller centres to perform procedures, fees for these particular procedures are exclusive of aftercare. The referring practitioner will then be entitled to subsequent hospital visits for aftercare. If the referring practitioner is not available, the specialist shall, on consultation with the patient, choose an appropriate locum tenens. Both the surgeon and the practitioner who handled the aftercare, must in such instances quote Modifier 0006 with the particular items which they use | | | | | | | | |

| 0010 | Local anaesthesic: (a) A fee for a local anaesthetic administered by the operator may only be charged for (1) an operation or procedure having a value greater than 30,00 clinical procedure units (i.e. 31,00 or more clinical procedure units allocated to a single item) or (2) where more than one operation or procedure is done at the same time with a combined value greater than 50,00 clinical procedure units. (b) The fee shall be calculated according to the basic anaesthetic units for the specific operation. Anaesthetic time may not be charged for, but the minimum fee as per Modifier 0036: Anaesthetic administered by a General Practitioner, shall be applicable in such a case. (c) Not applicable to radiological procedures (such as angiography and myelography. (d) No fee may be levied for topical application of local anaesthetic. (e) Please note: Modifier 0010: Local anaesthetic administered by the operator, may not be added on the surgeon's account for procedures that were performed under general anaesthetic. | | | | | | | | |
| 0011 | Emergency procedures: Any bona fide, justifiable emergency procedure (all hours) undertaken in an operating theatre and/or in another setting in lieu of an operating theatre, will attract an additional 12,00 clinical procedure units per half-hour or part thereof of the operating time for all members of the surgical team. Modifier 0011 does not apply in respect of patients on scheduled lists. | 0095 | Radiation materials: Exclusively for use where radiation materials supplied by the practice are used by clinical and radiation oncologists, modifier 0095 should be used to identify these materials. A material code list with descriptions and guideline costs for these materials, maintained and updated on a regular basis, will be supplied by the Society of Clinical and Radiation Oncology. This modifier is only chargeable by the practice responsible for the cost of this material and where the hospital did not charge therefore. Please note that item 0201 should not be used for these materials | | | | | | | | |
| 0096 | Radio-isotope therapy patients who fail to keep their appointments: Fee will include cost of isotope | | | | | | | | |
| 0097 | Pathology tests performed by non-pathologists: Where items under Clinical Pathology (section 21) and Anatomical Pathology (section 22) fall within the province of other specialists or General Practitioner s, the fee is to be charged at two-thirds of the pathologists fee | | | | | | | | |
| 0160 | Aspiration of biopsy procedure performed under direct ultrasound control by an ultrasound aspiration biopsy transducer (Static Realtime): Fee for part examined plus 30% of the units | | | | | | | | |

| | GENERAL MODIFIERS GOVERNING THIS SECTION | | | | | | | | |
| 0011 | Emergency procedures: Any bona fide, justifiable emergency procedure (all hours) undertaken in an operating theatre and/or in another setting in lieu of an operating theatre, will attract an additional 12,00 clinical procedure units per half-hour or part thereof of the operating time for all members of the surgical team. Modifier 0011 does not apply in respect of patients on scheduled lists. (A medical emergency is any condition where death or irreparable harm to the patient will result if there are undue delays in receiving appropriate medical treatment) | | | | | | | | |
| 0013 | Endoscopic examinations done at operations: Where a related endoscopic examination is done at an operation by the operating surgeon or the attending anaesthesiologist, only 50% of the fee for the endoscopic examination may be charged | | | | | | | | |
| 0014 | Operations previously performed by other surgeons: Where an operation is performed which has been previously performed by another surgeon, e.g. a revision or repeat operation, the fee shall be calculated according to the tariff for the full operation plus an additional fee to be negotiated under general Rule J: In exceptional cases where the fee is disproportionately low in relation to actual service rendered, except where already specified in the tariff | | | | | | | | |
| | MODIFIERS GOVERNING SECTION 1 | | | | | | | | |
| 0015 | Intravenous infusions: Where intravenous infusions (including blood and blood cellular products) are administered as part of the after-treatment after the operation or confinement, no extra fees shall be charged as this is included in the global operative or maternity fees. Should the practitioner doing the operation or attending to the maternity case prefer to ask another practitioner to perform post-operative or post-confinement intravenous infusions, then the practitioner himself (and not the patient) shall be responsible for remunerating such practitioner for the infusions | | | | | | | | |

| 0020 | Conscious sedation: Any case that is conducted outside of a hospital theatre shall be coded with the relevant procedure code. To identify these cases, the above modifier should be used to indicate to the medical scheme that there will be no hospital/theatre account. | | | | | | | | |
| 0021 | Determination of anaesthetic fees: Anaesthetic fees are determined by obtaining the sum of the basic anaesthetic units (allocated to each procedure that might be performed under anaesthetic as indicated in the "Anaesthetic Performed" column) plus the time units (calculated according to the formula in Modifier 0023) and the appropriate modifiers (see Modifiers 0037-0044). In cases of operative procedures on the musculoskeletal system, open fractures and open reduction of fractures or dislocations add units as laid down by Modifiers 5441 to 5448 | | | | | | | | |

| 0023 | The basic anaesthetic units are laid down in the tariff and are reflected in the anaesthetic column. These basic anaesthetic units reflect the additional anaesthetic risk, the technical skill required of the anaesthesiologist/anaesthetist and the scope of the surgical procedure, but exclude the value of the actual time spent administering the anaesthetic. The time units (indicated by "T") will be added to the listed basic anaesthetic units in all cases on the following basis: Anaesthetic time: The remuneration for anaesthetic time shall be per 15 minute period or part thereof, calculated from the commencement of the anaesthetic, i.e. 2,00 anaesthetic units per 15 minute period or part thereof, provided that should the duration of the anaesthetic be longer than one (1) hour the number of units shall, after one (1) hour, be 3,00 anaesthetic units per 15 minute period or part thereof. | | | | | | | | |
| 0024 | Pre-operative assessments not followed by procedures: If a pre-operative assessment of a patient by the anaesthesiologist/anaesthetist is not followed by an operation, it will be regarded as a visit at hospital or nursing home and the appropriate hospital visit item should be charged. | | | | | | | | |
| 0025 | Calculation of anaesthetic time: Anaesthetic time is calculated from the time the anaesthesiologist/anaesthetist begins to prepare the patient for the induction of anaesthesia in the operating theatre or in a similar equivalent area and ends when the anaesthesiologist/ anaesthetist is no longer required to give his/her personal professional attention to the patient, i.e. when the patient may, with reasonable safety, be placed under the customary post-operative supervision. Where prolonged personal professional attention is necessary for the well-being and safety of such patient, the necessary time will be valued on the same basis as indicated above for the anaesthetic time. The anaesthesiologist/anaesthetist must show on his/her account the exact anaesthetic time, including the supervision time spent with the patient. | | | | | | | | |
| 0027 | More than one procedure under the same anaesthetic: Where more than one operation is performed under the same anaesthetic, the basic anaesthetic units will be that of the major operation with the highest number of units | | | | | | | | |
| 0028 | Indicator for use of low flow anaesthetic technique less than 1 litre/minute: Fresh gas flow of less than 1 litre/minute | | | | | | | | |
| 0029 | Assistant anaesthesiologists: When rendered necessary by the scope of the anaesthetic, an assistant anaesthesiologist may be employed. The remuneration of the assistant anaesthesiologist shall be calculated on the same basis as in the case where a General Practitioner administers the anaesthetic | | | | | | | | |
| 0030 | Indicator for use of low flow anaesthetic technique 1-2 litre/minute: Fresh gas flow of 1 to 2 litre/minute | | | | | | | | |

No additional fees may be charged for such services when rendered either prior to, or during actual theatre or operating time | | | | | | | | |
| 0032 | Patients in prone position: Anaesthesia administered to patients in the prone position shall have a minimum of 4,00 basic anaesthetic units. When the basic anaesthetic units for the procedure is 3,00, one extra anaesthetic unit should be added. If the basic anaesthetic units for the procedure is 4,00 or more, no extra units should be added | | | | | | | | |
| 0033 | Participating in general care of patients: When an anaesthesiologist/anaesthetist is required to participate in the general care of a patient during a surgical procedure, but does not administer the anaesthetic, such services may be remunerated at full anaesthetic rate, subject to the provisos of modifier 0035: Anaesthetic administered by an anaesthesiologist/anaesthetist. and modifier 0036: Anaesthetic administered by General Practitioner s. | | | | | | | | |
| 0034 | Head and neck procedures: All anaesthetics administered for diagnostic, surgical or X-ray procedures on the head and neck shall have a minimum of 4,00 basic anaesthetic units. When the basic anaesthetic units for the procedure is 3,00, one extra anaesthetic unit should be added. If the basic anaesthetic units for the procedure is 4,00 or more, no extra units should be added | | | | | | | | |
| 0035 | Anaesthetic administered by an anaesthesiologist/anaesthetist: No anaesthetic administered shall have a total value of less than 7,00 anaesthetic units (basic units, time units plus appropriate modifiers). | | | | | | | | |
| 0036 | Anaesthetic administered by General Practitioner s: The units (basic units plus time plus the appropriate modifiers) used to calculate the fee for an anaesthetic administered by a General Practitioner lasting one hour or less, shall be the same as that for an anaesthesiologist. For anaesthetic lasting more than one hour, the units used to calculate the fee for an anaesthetic administered by a General Practitioner will be 4/5 (80%) of the total number of units (basic units plus time [refer to modifier 0023] plus the appropriate modifiers) applicable to an anaesthesiologist. Please note that the 4/5 (80%) principle will be applied to all anaesthetics administered by General Practitioner s with the proviso that no anaesthetic with a total number of units higher than 11.00 will be reduced to less than 11,00 units in total. The monetary value of the unit is the same for both an anaesthesiologist/anaesthetist. | | | | | | | | |

| | (i) Only one practitioner may charge category 1: Intensive monitoring of patient in high care unit. (ii) Item 1204 may not be charged by the surgeon who performed a surgical procedure. Intensive monitoring is regarded as normal postoperative care, which is included in the global fee attached to that surgical procedure. (iii) Practitioners involved in treating a patient in a high care unit must come to an agreement on which practitioner should be regarded as the primary practitioner and to which category the patient is classified. This will ensure that each of the practitioners is remunerated correctly for the actual services they rendered. | | | | | | | | |
| 1205 | Intensive care: Category 2 (ICU): Cases requiring active system support (where active specialised intervention is required in cases such as acute myocardial infarction, diabetic coma, head injury, severe asthma, acute pancreatitis, eclampsia, flail chest, etc. Ventilation may or may not be part of the active system support): First day | 20 | 100,000 | R1 386,00 | | 20,00 | 100,000 | R 1 386,00 | Ç |

| 1207 | Intensive care: Category 2(ICU): Cases requiring active system support (where active specialised intervention is required in cases such as acute myocardial infarction, diabetic coma, head injury, severe asthma, acute pancreatitis, eclampsia, flail chest, etc. Ventilation may or may not be part of the active system support): After two weeks, per day | 20 | 30,000 | R415,80 | | 20,00 | 30,000 | R 415,80 | ç |
| | Please Note: (i) The principal practitioner may charge items 1205 - 1207, other participating practitioners must charge the consultation item, e.g. item 0109 (ii) Only one practitioner may charge category 2: Intensive monitoring of patient in intensive care unit. (iii) Should a patient during the post-operative care period require active system support, the person who is responsible for the active systems support, may use items 1205-1207 (as appropriate). (iii) It would be acceptable for the surgeon who performed a surgical procedure of which the aftercare is included, to charge fees according to the appropriate hospital follow-up visit (item 0109) (iv) Practitioners involved in treating a patient in the intensive care unit must come to an agreement on which practitioner should be regarded as the primary practitioner and to which category the patient is classified. This will ensure that each of the practitioners is remunerated correctly for the actual services they rendered. | | | | | | | | |

| 19 | RADIOLOGY | | | | | | | | |
| | Please note: The calculated amounts in this section (except for sections 19.9 and 19.11) are calculated according to the radiology unit values | | | | | | | | |
| | RULES GOVERNING THE SECTION RADIOLOGY | | | | | | | | |
| Y. | Except where otherwise indicated, radiologists are entitled to charge for contrast material used | | | | | | | | |
| Z. | No fee is subject to more than one reduction | | | | | | | | |
| GG. | Capturing and recording of examinations: Images from all radiological, ultrasound and magnetic resonance imaging procedures must be captured during every examination and a permanent record generated by means of film, paper, or magnetic media. A report of the examination, including the findings and diagnostic comment, must be written and stored for five years | | | | | | | | |
| RR. | The radiology section in this price list is not for use by registered specialist radiology practices (Pr No "038") or nuclear medicine practices (Pr No "025"), but only for use by other specialist practices or General Practitioner s. A separate radiology schedule is for the exclusive use of registered specialist radiology practices (Pr No "038") and nuclear medicine practices (Pr No "025"). | | | | | | | | |
| | MODIFIERS GOVERNING THE SECTION | | | | | | | | |
| 0002 | Written report on X-rays: The lowest level code for a new patient office (consulting rooms) visit, is applicable only where a radiologist is requested to give a written report on X-rays taken elsewhere and submitted to him. The above mentioned item and the lowest level initial hospital visit code, as appropriate are not to be used for routine reporting of X-rays taken elsewhere | | | | | | | | |
| 0800 | Multiple examinations: Full Fee | | | | | | | | |
| 0081 | Repeat examinations: No reduction | | | | | | | | |
| 0082 | "+" Means that this item is complementary to a preceding item and is therefore not subject to reduction | | | | | | | | |
| 0083 | A reduction of 33,33% (1/3) in the fee will apply to radiological examinations as indicated in section 19: Radiology where hospital equipment is used | | | | | | | | |

| | The following rules are applicable to Section 19.8 (Vascular studies) and Section 19.14 (Interventional Radiological Procedures): | | | | | | | | |
| | a. The machine fee (items 3536 to 3550 includes the cost of the following: All runs (runs may not be billed for separately). All film costs (modifier 0084 is not applicable). All fluoroscopy (item 3601 does not apply). All minor consumables (defined as any item other than catheters, guidewires, introducer sets, specialised catheters, balloon catheters, stents, embolic agents, drugs and contrast media). b. The machine fee (items 3536 to 3550) may only be billed for as a once off fee per case per day by the owner of the equipment and is only applicable to radiology practices. c. If a procedure is performed by a non-radiologist together with a radiologist as a team, in a facility owned by the radiologist, each member of the team will fee at their respective full rates as per modifiers and the applicable items. d. If a procedure is performed by a non-radiologists and a radiologist as a team, in a facility not owned by the radiologist, modifiers 6301 and 6302 applies. Please note: Modifier 0083 is not applicable to section 19.8 (Vascular Studies) and section 19.14 (Interventional Radiological Procedures) | | | | | | | | |
| | MODIFIER GOVERNING VASCULAR STUDIES | | | | | | | | |
| 0086 | Vascular groups: "Film series" and "Introduction of Contrast Media" are complementary and together constitute a single examination: neither fee is therefore subject to increase in terms of Modifier 0080: Multiple examinations | | | | | | | | |
| 6300 | If a procedure lasts less than 30 minutes, only 50% of the machine fees for items 3536-3550 will be allowed (specify time of procedure on account) | | | | | | | | |
| 6301 | If a procedure is performed by a radiologist in a facility not owned by himself, the fee will be reduced by 40% (i.e. 60% of the fee will be charged) | | | | | | | | |
| 6302 | When the procedure is performed by a non-radiologist, the fee will be reduced by 40% (i.e. 60% of the fee will be charged) | | | | | | | | |

| | GENERAL RULE GOVERNING ULTRASONIC EXAMINATIONS DURING PREGNANCY | | | | | | | | | |
| EE. | Ultrasound examinations: The international norm approved for use in South Africa for NORMAL PREGNANCY is two ultrasound exams: (a) The first scan should preferably include a nuchal thickness estimation and be performed between 10 and 14 weeks gestation. The second scan should be performed between 20 and 24 weeks and should include a full anatomical report. All subsequent ultrasound scans are excluded from the benefits of medical schemes unless accompanied by proper motivation. An ultrasound scan to assess an abnormal early pregnancy may be formed before 10 weeks but this scan may not be used to diagnose a normal uncomplicated pregnancy. Item 3618 is a gynaecological scan and its use is not approved for use in pregnancy. (b) In cases where the scan is performed by the attending practitioner, a clear indication for such a scan must be entered on the account rendered, or a letter of motivation must be attached to the account (the practitioner must elect one of the two options). (c) In case of a referral, the referring doctor must submit a letter of motivation to the radiologist or other practitioner doing the scan. A copy of the letter of motivation must be attached to the first account rendered to the patient (by the radiologist or the other practitioner doing the scan) and must be attached to the first account submitted to the medical scheme by the patient or the doctor, as the case may be. (d) In case of a referral to a radiologist, no motivation should be required from the radiologist | | | | | | | | | |

The machine fee (items 3536 to 3550 includes the cost of the following: i. All runs (runs may not be billed for separately). ii. All film costs (modifier 0084 is not applicable). iii All fluoroscopy (item 3601 does not apply). iv All minor consumables (defined as any item other than catheters, guidewires, introducer sets, specialised catheters, balloon catheters, stents, embolic agents, drugs and contrast media). b. The machine fee (items 3536 to 3550) may only be billed for as a once off fee per case per day by the owner of the equipment and is only applicable to radiology practices. c. If a procedure is performed by a non-radiologist together with a radiologist as a team, in a facility owned by the radiologist, each member of the team will fee at their respective full rates as per modifiers and the applicable items. d. If a procedure is performed by a non-radiologists and a radiologist as a team, in a facility not owned by the radiologist, modifiers 6301 and 6302 applies. | 0090 | Radiologist's fee for participation in a team: 30,00 radiology units per ½ hour or part thereof for all interventional radiological procedures, excluding any pre- or post-operative angiography, catheterisation, CT-scanning, ultrasound-scanning or x-ray procedures. (Only to be charged if radiologist is hands-on, and not for interpretation of images only) | | | | | | | | |
| 19.15 | Magnetic Resonance Imaging (MRI) | | | | | | | | |
| 6100 | In order to charge the full fee (600,00 magnetic resonance units) for an examination of a specific single anatomical region, it should be performed with the applicable radio frequency coil including T1 and T2 weighted images on at least two planes | | | | | | | | |
| 6101 | Where a limited series of a specific anatomical region is performed (except bone tumour), e.g a T2 weighted image of a bone for an occult stress fracture, not more than two-thirds (2/3) of the fee may be charged. Also applicable to all radiotherapy planning studies, per region | | | | | | | | |
| 6102 | All post-contrast studies (except bone tumour), including perfusion studies, to be charges at 50% of the fee | | | | | | | | |
| 6103 | Post-contrast study: Bone tumour: 100% of the fee | | | | | | | | |
| 6104 | Limited examination of the hypophysis e.g. where a coronal T1 and sagittal T1 series are performed, two-thirds (2/3) of the fee is applicable | | | | | | | | |
| 6105 | Where, in a limited hypophysis examination, Gadolinium is administered and coronal T1 and sagittal T1 series are repeated, a single full fee for the entire examination is applicable + cost of Gadolinium + disposable items | | | | | | | | |
| 6106 | Where a magnetic resonance angiography (MRA) of large vessels is performed as primary examination, 100% of the fee is applicable. This modifier is only applicable if the series is performed by use of a recognised angiographic software package with reconstruction capability | | | | | | | | |
| 6107 | Where a magnetic resonance angiography (MRA) of the vessels is performed additional to an examination of a particular region, 50% of the fee is applicable for the angiography. This modifier is only applicable if the series is performed by use of a recognised angiographic software package with reconstruction capability | | | | | | | | |
| 6108 | Where only a gradient echo series is performed with a machine without a recognised angiographic software package with reconstruction ability, 20% of the full fee is applicable specifying that it is a "flow sensitive series" | | | | | | | | |

| IV. | Travelling Expenses | | | | | | | | |
| P. | Travelling fees: (a) Where, in cases of emergency, a practitioner was called out from his residence or rooms to a patient's home or the hospital, travelling fees can be charged according to the section on travelling expenses (section IV) if he had to travel more than 16 kilometres in total. (b) If more than one patient would be attended to during the course of a trip, the full travelling expenses must be divided between the relevant patients. (c) A practitioner is not entitled to charge for any travelling expenses or travelling time to his rooms. (d) Where a practitioner's residence would be more than 8 kilometres away from a hospital, no travelling fees may be charged for services rendered at such hospitals, except in cases of emergency (services not voluntarily scheduled). (e) Where a practitioner conducts an itinerant practice, he is not entitled to charge fees for travelling expenses except in cases of emergency (services not voluntarily scheduled). (f) For voluntarily scheduled services, fees for travelling expenses may only be charged where the patient and the practitioner have entered into an agreement to this effect. Medical scheme benefits will not be applicable in such instances. | | | | | | | | |
| 5003 | The indicated amount for each kilometre in excess of 16 kilometres travelled in own car e.g. where a practitioner has to travel 19 kilometres in total to visit a patient, the fees shall be calculated as follows: 19-16=3 X Indicated amount | 20 | 1,000 | R13,80 | | | 1,000 | R 13,80 | |

| | In calculating the GEMS Tariff, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. ALL GEMS TARIFFS ARE VAT INCLUSIVE. | | | | | | | | |
| | RULES GOVERNING THE STRUCTURE | | | | | | | | |
| A. | Consultations: Definitions: (a) New and established patients: A consultation/visit refers to a clinical situation where a medical practitioner personally obtains a patient's medical history, performs an appropriate clinical examination and, if indicated, administers treatment, prescribes or assists with advice. These services must be face-to-face with the patient and excludes the time spent doing special investigations which receive additional remuneration. (b) Subsequent visits: Refers to a voluntarily scheduled visit performed within four (4) months after the first visit. It may imply taking down a medical history and/or a clinical examination and/or prescribing or administering of treatment and/or counselling. (c) Hospital visits: Where a procedure or operation was done, hospital visits are regarded as part of the normal aftercare and no fees may be levied (unless otherwise indicated). Where no procedure or operation was carried out, fees may be charged for hospital visits according to the appropriate hospital or inpatient follow-up visit code. | | | | | | | | |
| B. | Normal hours and after hours: After-hours services are paid at the same rate as benefits for normal hours services. Bona fide emergency medical services rendered to a patient, at any time, may attract a fee as specified in modifier 0011 and items 0146 or 0147 (which should be added to the appropriate consultative services code selected from items 0190-0192, 0173-0175, 0161-0164, 0166-0169) | | | | | | | | |

| C. | Comparable services: A service may be rendered that is not listed in this edition of the coding structure. The fee that may be charged in respect of the rendering of a service not listed in this coding structure shall be based on the fee in respect of a comparable service. For these procedure(s)/service(s), item 6999: Unlisted procedure or service code, should be used. Please contact the SA Medical Association (SAMA) Private Practice Unit via e-mail on coding@samedical.org to obtain a comparable code for the unlisted procedure/service which will be based on the fee for a comparable service in the coding structure. When item 6999 is used to indicate that an unlisted service was rendered, the use of the item must be supported by a special report. This report must include: 1) An adequate definition or description of the nature, extent and need for the procedure/service or "medical necessity"; 2) In which respect is this service unusual or different in technique, compared to available procedures/services listed in the coding structure? Information regarding the nature and extent of the procedure/service, time and effort, special/dedicated equipment needed to provide this service, must be included in the report; 3) Is this procedure/service medically appropriate under the circumstances? Explain why another procedure/service listed in the coding structure will not be appropriate in this case; (4) A description of the complexity of the symptoms and concurrent problems must be supplied; 5) Final diagnosis supported by the appropriate ICD-10 code(s); 6) Pertinent physical findings (size, location and number of lesions if applicable); 7) Mention any other diagnostic or therapeutic procedure(s)/service(s) provided at the same session; 8) Any further diagnostic or therapeutic procedure(s)/service(s) to be provided in the follow-up period; and 9) Description of the follow-up care needed. Please note: This comparable service code may not be used for a period longer than six months for a particular procedure/service a | | | | | | | | |

| D. | Cancellation of appointments: Unless timely steps are taken to cancel an appointment for a consultation, the relevant consultation fee may be charged. In the case of a General Practitioner "timely" shall mean two hours and in the case of a specialist 24 hours prior to the appointment. Each case shall, however, be considered on merit and, if circumstances warrant, no fee shall be charged. If a patient has not turned up for a procedure, each member of the surgical team is entitled to charge for a visit at or away from doctor's rooms as the case may be | | | | | | | | |
| E. | Pre-operative visits: The appropriate fee may be charged for all pre-operative visits with the exception of a routine pre-operative visit at the hospital | | | | | | | | |
| F. | Administering of injections and/or infusions: Where applicable, fees for administering injections and/or infusions may only be charged when done by the practitioner himself | | | | | | | | |
| G. | Post-operative care: (a) Unless otherwise stated, the fee in respect of an operation or procedure shall include normal aftercare for a period not exceeding ONE month (aftercare is excluded from pure diagnostic procedures during which no therapeutic procedures were performed). (b) If the normal aftercare is delegated to any other registered health professional and not completed by the surgeon, it shall be his/her own responsibility to arrange for this to be done without extra charge. (c) When post-operative care/treatment of a prolonged or specialised nature is required, such fee as may be agreed upon between the surgeon and the scheme or the patient (in case of a private account) may be charged. (d) Normal aftercare refers to an uncomplicated post-operative period not requiring any further incisions | | | | | | | | |
| H. | Removal of lesions: Items involving removal of lesions include follow-up treatment for 10 days | | | | | | | | |
| J. | Disproportionately low fees: In exceptional cases where the fee is disproportionately low in relation to the actual services rendered by a medical practitioner, a higher fee may be negotiated. The use of this rule is not intended merely to increase the Medical Schemes Benefits. | | | | | | | | |

| U. | Obstetric procedures: (a) When a General Practitioner treats a patient in the ante-natal period and, after starting the confinement, requests an obstetrician to take over the case, the General Practitioner shall be entitled to charge for all the ante-natal consultations he/she has performed. (i) If the patient has been in labour for less than 6 hours, the General Practitioner shall charge 50,00 clinical procedure units according to item 2614: Global obstetric care. (ii) If the patient has been in labour for more than 6 hours, the General Practitioner shall charge 80,00 clinical procedure units according to item 2614: Global obstetric care. (b) When a General Practitioner calls an obstetrician to help with a confinement, take over the management of a confinement, and treats the patient until after the post-partum visit, the obstetrician shall charge according to item 2614: Global obstetric care. (c) When a General Practitioner calls an obstetrician (specialist or General Practitioner) to help with a confinement, or take over the management of a confinement, but the General Practitioner treats the patient until after the post-partum visit, the obstetrician shall charge according to item 2616: Intrapartum obstetric care by obstetrician in consultation, and the General Practitioner according to item 2614: Global obstetric care. | | | | | | | | | |
| V. | (a) Electro-convulsive treatment: Visits at hospital or nursing home during a course of electro-convulsive treatment are justified and may be charged for in addition to the fees for the procedure. (b) Except where otherwise indicated, the duration of a medical psychotherapeutic session is set at 20 minutes or part thereof, provided that such a part comprises 50% or more of the time of a session. This set duration is also applicable for psychiatric examination methods | | | | | | | | | |
| Y. | Except where otherwise indicated, radiologists are entitled to charge for contrast material used | | | | | | | | | |
| Z. | No fee is subject to more than one reduction | | | | | | | | | |

| CC. | Acupuncture: (a) When two separate acupuncture techniques are used, each treatment shall be regarded as a separate treatment for which fees may be charged for separately. (b) Not more than two separate techniques may be charged for at each session. (c) The maximum number of acupuncture treatments per course to be charged for is limited to 20. If further treatment is required at the end of this period of treatment, it should be negotiated with the patient. (d) Item 0380 refers to scalp acupuncture as a treatment in its own right and not to the use of acupuncture points on the scalp | | | | | | | | | | |
| EE. | Ultrasound examinations: The international norm approved for use in South Africa for NORMAL PREGNANCY is two ultrasound exams: (a) The first scan should preferably include a nuchal thickness estimation and be performed between 10 and 14 weeks gestation. The second scan should be performed between 20 and 24 weeks and should include a full anatomical report. All subsequent ultrasound scans are excluded from the benefits of medical schemes unless accompanied by proper motivation. An ultrasound scan to assess an abnormal early pregnancy may be formed before 10 weeks but this scan may not be used to diagnose a normal uncomplicated pregnancy. Item 3618 is a gynaecological scan and its use is not approved for use in pregnancy. (b) In cases where the scan is performed by the attending practitioner, a clear indication for such a scan must be entered on the account rendered, or a letter of motivation must be attached to the account (the practitioner must elect one of the two options). (c) In case of a referral, the referring doctor must submit a letter of motivation to the radiologist or other practitioner doing the scan. A copy of the letter of motivation must be attached to the first account rendered to the patient (by the radiologist or the other practitioner doing the scan) and must be attached to the first account submitted to the medical scheme by the patient or the doctor, as the case may be. (d) In case of a referral to a radiologist, no motivation should be required from the radiologist | | | | | | | | | | |

(b) When a cystoscopy precedes an unrelated operation, Modifier 0005: Multiple procedures/operations under the same anaesthetic, applies, e.g. cystoscopy for urinary tract infection followed by inguinal hernia repair. (c) No modifier applies to item 1949: Cystoscopy, when performed together with any of items 1951 to 1973. | | | | | | | | | | |
| GG. | Capturing and recording of examinations: Images from all radiological, ultrasound and magnetic resonance imaging procedures must be captured during every examination and a permanent record generated by means of film, paper, or magnetic media. A report of the examination, including the findings and diagnostic comment, must be written and stored for five years | | | | | | | | | | |
| RR. | The radiology section in this price list is not for use by registered specialist radiology practices (Pr No "038") or nuclear medicine practices (Pr No "025"), but only for use by other specialist practices or general practitioners. A separate radiology schedule is for the exclusive use of registered specialist radiology practices (Pr No "038") and nuclear medicine practices (Pr No "025"). | | | | | | | | | | |

| 0004 | Procedures performed in own procedure rooms: Procedures performed in doctors' own procedure rooms instead of in a hospital theatre or unattached theatre unit: as per fee for procedure + 100% (the value of modifier 0004 equals 100% of the value of the procedure performed). See Section V (Section G in SAMA's DBT) for a list of procedures, which are often done in rooms to which Modifier 0004 should not be applied. Please note: Only the medical practitioner who owns the facility and the equipment may charge modifier 0004. Only one person may claim this modifier for procedures performed in doctors' own procedure rooms | | | | | | | | | | |
| 0005 | Multiple therapeutic procedures/operations under the same anaesthetic: a) Unless otherwise identified in the tariff when multiple therapeutic procedures/ operations add significant time and/or complexity, and when each procedure/ operation is clearly identified and defined, the following values shall prevail: 100% (full value) for the first or major procedure/operation, 75% for the second procedure/operation, 50% for the third procedure/operation, 25% for the fourth and subsequent procedures/operations. This modifier does not apply to purely diagnostic procedures. b) In the case of multiple fractures and/or dislocations the above values shall prevail. c) When purely diagnostic endoscopic procedures or diagnostic endoscopic procedures unrelated to any therapeutic procedures performed, are performed under the same general anaesthetic, Modifier 0005 is not applicable to the fees for such diagnostic endoscopic procedures as the fees for endoscopic procedures do not provide for aftercare. Specify unrelated endoscopic procedure and provide diagnosis to indicate diagnostic endoscopic procedure(s) unrelated to other (therapeutic) procedures performed under the same anaesthetic. d) Please note: When more than one small procedure is performed and the tariff makes provision for items for "subsequent" or "maximum for multiple additional procedures" (see Section 2. Integumentary System) Modifier 0005 is not applicable as the fee is already a reduced fee. e) "+" Means that this item is used in addition to another definitive procedure and is therefore not subject to reduction according to Modifier 0005 (see also Modifier 0082) | | | | | | | | | | |

(b) The fee shall be calculated according to the basic anaesthetic units for the specific operation. Anaesthetic time may not be charged for, but the minimum fee as per Modifier 0036: Anaesthetic administered by a General Practitioner, shall be applicable in such a case. (c) Not applicable to radiological procedures (such as angiography and myelography. (d) No fee may be levied for topical application of local anaesthetic. (e) Please note: Modifier 0010: Local anaesthetic administered by the operator, may not be added on the surgeon's account for procedures that were performed under general anaesthetic. | | | | | | | | | | |
| 0011 | Emergency procedures: Any bona fide, justifiable emergency procedure (all hours) undertaken in an operating theatre and/or in another setting in lieu of an operating theatre, will attract an additional 12,00 clinical procedure units per half-hour or part thereof of the operating time for all members of the surgical team. Modifier 0011 does not apply in respect of patients on scheduled lists. (A medical emergency is any condition where death or irreparable harm to the patient will result if there are undue delays in receiving appropriate medical treatment) | | | | | | | | | | |
| 0013 | Endoscopic examinations done at operations: Where a related endoscopic examination is done at an operation by the operating surgeon or the attending anaesthesiologist, only 50% of the fee for the endoscopic examination may be charged | | | | | | | | | | |
| 0014 | Operations previously performed by other surgeons: Where an operation is performed which has been previously performed by another surgeon, e.g. a revision or repeat operation, the fee shall be calculated according to the tariff for the full operation plus an additional fee to be negotiated under general Rule J: In exceptional cases where the fee is disproportionately low in relation to actual service rendered, except where already specified in the tariff | | | | | | | | | | |

| 0020 | Conscious sedation: Any case that is conducted outside of a hospital theatre shall be coded with the relevant procedure code. To identify these cases, the above modifier should be used to indicate to the medical scheme that there will be no hospital/theatre account. | | | | | | | | | |
| 0021 | Determination of anaesthetic fees: Anaesthetic fees are determined by obtaining the sum of the basic anaesthetic units (allocated to each procedure that might be performed under anaesthetic as indicated in the "Anaesthetic Performed" column) plus the time units (calculated according to the formula in Modifier 0023) and the appropriate modifiers (see Modifiers 0037-0044). In cases of operative procedures on the musculoskeletal system, open fractures and open reduction of fractures or dislocations add units as laid down by Modifiers 5441 to 5448 | | | | | | | | | |
| 0023 | The basic anaesthetic units are laid down in the tariff and are reflected in the anaesthetic column. These basic anaesthetic units reflect the additional anaesthetic risk, the technical skill required of the anaesthesiologist/anaesthetist and the scope of the surgical procedure, but exclude the value of the actual time spent administering the anaesthetic. The time units (indicated by "T") will be added to the listed basic anaesthetic units in all cases on the following basis: Anaesthetic time: The remuneration for anaesthetic time shall be per 15 minute period or part thereof, calculated from the commencement of the anaesthetic, i.e. 2,00 anaesthetic units per 15 minute period or part thereof, provided that should the duration of the anaesthetic be longer than one (1) hour the number of units shall, after one (1) hour, be 3,00 anaesthetic units per 15 minute period or part thereof. | | | | | | | | | |
| 0024 | Pre-operative assessments not followed by procedures: If a pre-operative assessment of a patient by the anaesthesiologist/anaesthetist is not followed by an operation, it will be regarded as a visit at hospital or nursing home and the appropriate hospital visit item should be charged. | | | | | | | | | |

| 0025 | Calculation of anaesthetic time: Anaesthetic time is calculated from the time the anaesthesiologist/anaesthetist begins to prepare the patient for the induction of anaesthesia in the operating theatre or in a similar equivalent area and ends when the anaesthesiologist/anaesthetist is no longer required to give his/her personal professional attention to the patient, i.e. when the patient may, with reasonable safety, be placed under the customary post-operative supervision. Where prolonged personal professional attention is necessary for the well-being and safety of such patient, the necessary time will be valued on the same basis as indicated above for the anaesthetic time. The anaesthesiologist/anaesthetist must show on his/her account the exact anaesthetic time, including the supervision time spent with the patient. | | | | | | | | | | |

| | GENERAL RULE GOVERNING ULTRASONIC EXAMINATIONS DURING PREGNANCY | | | | | | | | | |
| EE. | Ultrasound examinations: The international norm approved for use in South Africa for NORMAL PREGNANCY is two ultrasound exams: (a) The first scan should preferably include a nuchal thickness estimation and be performed between 10 and 14 weeks gestation. The second scan should be performed between 20 and 24 weeks and should include a full anatomical report. All subsequent ultrasound scans are excluded from the benefits of medical schemes unless accompanied by proper motivation. An ultrasound scan to assess an abnormal early pregnancy may be formed before 10 weeks but this scan may not be used to diagnose a normal uncomplicated pregnancy. Item 3618 is a gynaecological scan and its use is not approved for use in pregnancy. (b) In cases where the scan is performed by the attending practitioner, a clear indication for such a scan must be entered on the account rendered, or a letter of motivation must be attached to the account (the practitioner must elect one of the two options). (c) In case of a referral, the referring doctor must submit a letter of motivation to the radiologist or other practitioner doing the scan. A copy of the letter of motivation must be attached to the first account rendered to the patient (by the radiologist or the other practitioner doing the scan) and must be attached to the first account submitted to the medical scheme by the patient or the doctor, as the case may be. (d) In case of a referral to a radiologist, no motivation should be required from the radiologist | | | | | | | | | |

| | MODIFIER GOVERNING INTERVENTIONAL RADIOLOGICAL PROCEDURES | | | | | | | | | | |
| 0090 | Radiologist's fee for participation in a team: 30,00 radiology units per ½ hour or part thereof for all interventional radiological procedures, excluding any pre- or post-operative angiography, catheterisation, CT-scanning, ultrasound-scanning or x-ray procedures. (Only to be charged if radiologist is hands-on, and not for interpretation of images only) | | | | | | | | | | |
| 19.15 | Magnetic Resonance Imaging (MRI) | | | | | | | | | | |
| 6100 | In order to charge the full fee (600,00 magnetic resonance units) for an examination of a specific single anatomical region, it should be performed with the applicable radio frequency coil including T1 and T2 weighted images on at least two planes | | | | | | | | | | |
| 6101 | Where a limited series of a specific anatomical region is performed (except bone tumour), e.g a T2 weighted image of a bone for an occult stress fracture, not more than two-thirds (2/3) of the fee may be charged. Also applicable to all radiotherapy planning studies, per region | | | | | | | | | | |
| 6102 | All post-contrast studies (except bone tumour), including perfusion studies, to be charges at 50% of the fee | | | | | | | | | | |
| 6103 | Post-contrast study: Bone tumour: 100% of the fee | | | | | | | | | | |
| 6104 | Limited examination of the hypophysis e.g. where a coronal T1 and sagittal T1 series are performed, two-thirds (2/3) of the fee is applicable | | | | | | | | | | |
| 6105 | Where, in a limited hypophysis examination, Gadolinium is administered and coronal T1 and sagittal T1 series are repeated, a single full fee for the entire examination is applicable + cost of Gadolinium + disposable items | | | | | | | | | | |
| 6106 | Where a magnetic resonance angiography (MRA) of large vessels is performed as primary examination, 100% of the fee is applicable. This modifier is only applicable if the series is performed by use of a recognised angiographic software package with reconstruction capability | | | | | | | | | | |

| | In calculating the GEMS Tariff, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10 cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. | | | | | | | | | | |
| _ | ALL GEMS TARIFFS ARE VAT INCLUSIVE. | | | | | | | | | | |
| Α | General information | | | | | | | | | | |
| | The "RegN" column (Practice Type 48800) of this schedule is a reference price list for registered nurses and midwives only (not enrolled nurses) in private practice, and may only be charged by the registered nurse performing the procedure, and whose practice number is reflected on the account. | | | | | | | | | | |
| | The "NAgen" column (Practice Type 48000) of this schedule is a reference price list for registered accredited nursing agencies and accredited home healthcare organisations only (not nurses in private practice), i.e. if employed at a nursing agency or home healthcare organisation the private nurse practitioner may not submit claims on his/her practice number. | | | | | | | | | | |
| | A registered nurse or midwife is a nurse or midwife registered with the South African Nursing Council in terms of the Nursing Act 50 of 1978 (as amended). | | | | | | | | | | |
| | Agency refers to: An accredited business registered/licensed with the SA Nursing Council carrying out the business of providing Registered and supervised Enrolled Nursing services, as well as surgicals and equipment. The agency should also be registered with a representative professional governing body. | | | | | | | | | | |

| В | GENERAL RULES | | | | | | | | | | |
| 01 | Consultation, counselling, planning and/or assessment | | | | | | | | | | |
| | Consultation, counselling and/or assessment (codes 001 and 002 below) encompasses consultation, history-taking, patient examination and assessment, observation, treatment planning, aftercare treatment planning, discharge planning and/or counselling. If a consultation and one or more procedures are performed in the visit, both a consultation code and the relevant procedure code(s) may be charged but the time spent on the procedure shall not be included in the consultation period for purposes of determining the consultation fee. A consultation may not be charged where the sole purpose of the visit was to perform a procedure. | | | | | | | | | | |
| 02 | Emergency visits Bona-fide, justifiable emergency nursing services rendered to a patient, at any time, may attract an additional fee as specified in Item 014. These specifically relate to home visits for procedures which become necessary outside those which have been pre-arranged, such as but not exclusively, blocked urinary catheters, IV therapy which tissues or wound(s) which are draining excessively and require additional dressing. These should be accompanied by a written motivation. Note: This fee is only applicable to registered nurses in private practice, and not to nursing agencies. | | | | | | | | | | |

| 07 | Midwifery | | | | | | | | | | |
| | The global fee is to be charged where the midwife and any assistants attend to the entire four stages of delivery. Item 399 or 403 to be quoted. No additional service fee may be levied, but pharmaceuticals may be charged under Item 301. | | | | | | | | | | |
| | Where intravenous infusions (including blood or blood cellular products) are administered as part of the after treatment after confinement, no extra fees will be charged as this is included in the global maternity fees. Should the attending midwife prefer to ask a medical practitioner to perform intravenous infusion, then the midwife (and not the patient) is responsible for remunerating such practitioner for the infusions. | | | | | | | | | | |
| | When a registered midwife treats a patient in the antenatal period and after starting the confinement requests a doctor to take over the case, the registered midwife shall calculate the fee for work done up to the handover of the case. | | | | | | | | | | |
| | Should a midwife be required to hand over the case to a medical practitioner due to complications during a home delivery and she is required to assist, Item 410 may be used. | | | | | | | | | | |
| | Where the confinement has not started and the midwife requests a doctor to take over the case, the fee for the visits during early labour shall be charged as Item 406. This may not be combined with Item 400. Antenatal/postnatal exercise or education classes are generally not covered by the schemes and payment is the responsibility of the member. | | | | | | | | | | |
| 08 | Travel fee | | | | | | | | | | |
| | Please note that generally schemes do not accept the responsibility for transport expenses, as they are deemed to be included in the fee. | | | | | | | | | | |
