A financial Perspective

It is important to note that on average, GEMS members pay **23% less for the same benefits** than on other medical schemes in the industry **before the subsidy is applied**.

Your 2026 monthly contributions

GEMS member contributions for 2026 will increase by a weighted average of 9.8%. This adjustment is necessary to ensure the Scheme's long-term sustainability. Your increase will also be determined by your salary band and the number of beneficiaries registered*. The tables below show the full contributions for the year and do not include any subsidies you may qualify for. If you qualify for a subsidy**, your employer will pay part of the contribution, and you will be required to pay the balance.

Kindly note: that while awaiting the 2026 subsidy determination, the deduction from your January 2026 salary will reflect the subsidy as payable during 2025. The reconciliation of any short payments or over payments from your January 2026 salaries will be corrected in subsequent months.

Important note: The payroll cut-off date for the January 2026 salary payment run is 15 December 2025. All option changes, remuneration updates or membership changes processed on or after 15 December 2025, will result in a short payment or over payment from your January 2026 salary. In such an instance, the deductions will be corrected in subsequent months.
